

350L NPK Fertilizer Single Shaft Mixer Mushroom Compost Machine

Our Product Introduction

for more products please visit us on organicfertilizerequipment.com

Basic Information

- Place of Origin: China
- Brand Name: TONGDA
- Certification: CE, ISO
- Model Number: TDDJ-0730
- Minimum Order Quantity: 1
- Packaging Details: According to customer requirements
- Delivery Time: 5-10 days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100 units per month

Product Specification

- Product Name: Single Shaft Mixer
- Rotation Speed: 45r/min
- Power: 11KW
- Usage: Organic Fertilizer Equipment Production
- Max. Loading Capacity: 350L
- Highlight: **NPK Fertilizer Single Shaft Mixer, NPK Mushroom Compost Machine, 350L NPK Single Shaft Mixer**

Product Description

Mushroom Compost Single Shaft Mixer Machinery For Npk Fertilizer Mixing Machine

The single-shaft mixer is mainly used in organic fertilizers, compound fertilizers and dust collectors of thermal power plants, and can also be used in chemical metallurgy, mining, building materials and other industries.

Performance characteristics:

- 1.High efficient. It has high mixing efficiency and small floor space. The spiral blade is made of a highly wear-resistant special alloy.
- 2.Low noise. It adopts reducer transmission, which makes the rotation stable and the noise is low.
- 3.The structure is reasonable. The single-shaft mixer is fed from the top and discharged at the bottom, and the structure is reasonable.
- 4.Running smoothly. The seal between the joint surfaces is tight and the operation is stable.

Model	Rotary Speed(r/min)	Production Capacity(m³/h)	Supporting Power(kw)
TDDJ-0730	45	4	11

Working principle:

The working principle is that the materials go into the mixing tank, pass through a group of double helical ribbon type blade, they are stirred uniform, and enter next granulation process.

FAQ:

1. Are you trading company or manufacturer ?

We are a manufacturer with a history over 40 years and have realized one-stop service for design, manufacture, installation, debugging and technical training.

2. How long is the delivery time?

For standard machines or Components, it would be 5-10 days; For non-standard machines and customized machines according to clients specific requirements, it would be appointment time.

3. Do you arrange shipment for the machines?

Yes, we will do that. For FOB or CIF price, we will arrange shipment for you. For EXW price, we will assist you in arranging shipment.

4. How about your product after-sales service?

Normally we provide video and written technical support. If necessary, our engineers can also provide on-site service. Our product accessories can be selected according to the actual needs of the customer to choose the most appropriate way to deliver.

5. What kinds of certificate you have?

ISO 9001: 2015 SGS and we can make other certificates according to customers' detailed requirements.

6. How to guarantee the quality and operation before loading?

We have our own quality control department and have advance quality control system while from raw materials to finished products. All the machines and production lines shall be 100% checked and tested before delivery.
