

## 7.5KW Organic Fertilizer Polishing Machine Cow Dung Pellet Making Machine

Our Product Introduction

for more products please visit us on [organicfertilizerequipment.com](http://organicfertilizerequipment.com)

### Basic Information

- Place of Origin: China
- Brand Name: TONGDA
- Certification: CE, ISO
- Model Number: TDPY-800
- Minimum Order Quantity: 1
- Packaging Details: According to customer requirements
- Delivery Time: 5-10 days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100 units per month

### Product Specification

- Application: Organic Fertilizer Polishing Machine
- Production Capacity: 7.5KW
- Voltage: 220V/380V
- Disc Diameter: 1000mm
- Raw Material: Organic Manure, Chicken Manure, Poultry Manure.
- Production Capacity: 2-8ton/h
- Highlight: **7.5KW Fertilizer Polishing Machine, Organic Fertilizer Polishing Machine, Cow Dung Pellet Making Machine**

## Product Description

### Organic Fertilizer Granulation Making Fertilizer Polishing Cow Dung Pellet Machine

The organic fertilizer polishing machine is a circular throwing device which is equipped on the basis of the granulator of organic fertilizer and compound fertilizer, which makes the particles roll into balls at one time, with no return material, high ball forming rate, good strength, beautiful and practic.

#### Performance characteristics:

- 1.High output and flexible arrangement.Single or several granulators can be used at the same time, to solve the past granulator must be equipped with a circular casting machine brought by the complex technology, equipment investment and other disadvantages.
- 2.The finished products have the same granularity and high yield.The machine is composed of two or more throwing cylinders arranged in sequence, and the material is discharged from the discharge port after several rounds of throwing. The finished product has the same particle size, high density, roundness and smoothness, and high yield.
- 3.Simple structure, easy operation and maintenance.Make cylindrical particles rolling into a ball, no return material appearance beautiful, simple structure, safe and reliable, easy operation and maintenance, according to the manual can be operated.
- 4.Strong adaptability, low cost and high benefit.Anti - overload ability, can adapt to all kinds of environment.

Model	Production Capacity(t/h)	Matching Power(kw)	Disc Diameter(mm)	Shape Size(mm)
TDPY-800	1-2	5.5*2	800	2800*920*1290
TDPY-1000	2-3	5.5*2	1000	3100*1020*1390
TDPY-1200	3-5	7.5*2	1200	3400*1120*1490
TDPY-1500	5-8	11*2	1500	3200*1550*1600

#### Working principle:

This organic fertilizer polishing machine is composed of two or more throwing cylinders arranged in sequence. After repeated centrifugal throwing, the material is discharged from the discharge port.

#### FAQ:

##### 1. Are you trading company or manufacturer ?

We are a manufacturer with a history over 40 years and have realized one-stop service for design, manufacture, installation, debugging and technical training.

##### 2. How long is the delivery time?

For standard machines or Components, it would be 5-10 days; For non-standard machines and customized machines according to clients specific requirements, it would be appointment time.

##### 3. Do you arrange shipment for the machines?

Yes, we will do that. For FOB or CIF price, we will arrange shipment for you. For EXW price, we will assist you in arranging shipment.

##### 4. How about your product after-sales service?

Normally we provide video and written technical support. If necessary, our engineers can also provide on-site service. Our product accessories can be selected according to the actual needs of the customer to choose the most appropriate way to deliver.

##### 5. What kinds of certificate you have?

ISO 9001: 2015 SGS and we can make other certificates according to customers' detailed requirements.

##### 6. How to guarantee the quality and operation before loading?

We have our own quality control department and have advance quality control system while from raw materials to finished products. All the machines and production lines shall be 100% checked and tested before delivery.
