

Chicken Waste Fertilizer Compost Turner Machine Manure Ferment Compost Machine

Our Product Introduction

for more products please visit us on organicfertilizerequipment.com

Basic Information

- Place of Origin: China
- Brand Name: TONGDA
- Certification: CE, ISO
- Model Number: TDCFD-3000
- Minimum Order Quantity: 1
- Packaging Details: According to customer requirements
- Delivery Time: 5-10 days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100 units per month

Product Specification

- Product Name: Groove Type Compost Turner
- Application: For Compost Fermentation
- Production Capacity: 97%
- Voltage: 380-460V 3 Phases
- Raw Material: Organic Manure
- Turning Depth: 800-1000mm
- Highlight: **Chicken Waste Compost Machine, Manure Ferment Compost Machine, Chicken Waste Compost Turner Machine**

Product Description

Chicken Waste Fertilizer Compost Turner Machine Manure Ferment Compost Machine

Groove type compost turner machine is also known as rail type tipping machine. It can be used for the fermentation and turning of livestock manure, sludge garbage, filter mud of sugar factory, and organic waste of residue cake, and is widely used in organic fertilizer plants, compound fertilizer plants, sludge garbage plants, horticultural farms, and the seed ripening and moisture removal operations of bisporus.

Features of Professional organic fertilizer plant groove type compost turner equipment for sale:

1. Automation control. Centralized control by the control cabinet, so that can realize the function of manual or automatic control.
2. Solid and durable. The teeth are durable and has the ability of breaking and mixing the compost materials.
3. Suitable for aerobic fermentation, and it can match with solar energy fermentation chamber, fermentation tank and transfer machine.
4. Compact structure and advanced technology. The use of some beneficial microorganisms can promote the rapid decomposition of organic wastes such as livestock manure.

1. Groove type compost turner is usually called rail type compost turner, track type compost turner, turning machine etc.
2. It can be used for the fermentation of livestock manure, sludge and garbage, filter mud from sugar mill, worse slag cake and straw sawdust and other organic waste.
3. The machine is widely used in organic fertilizer plant, compound fertilizer plant, sludge and garbage plant, horticultural farm and bisporus plant for fermentation and the removal of water.
4. The groove type compost turner produced by our company has 3 national patents. The spans can be between 3 and 30 meters and the height can be 0.8-1.8 meters.
5. We have double-groove type and half-groove type to meet the customers' different needs.

Advantages:

1. Automation control. Centralized control by the control cabinet, so that can realize the function of manual or automatic control.
2. Solid and durable. The teeth are durable and has the ability of breaking and mixing the compost materials.
3. The groove type compost turner is suitable for aerobic fermentation, and it can match with solar energy fermentation chamber, fermentation tank and transfer machine.
4. Compact structure and advanced technology. The use of some beneficial microorganisms can promote the rapid decomposition of organic wastes such as livestock manure.

FAQ:

1. Are you trading company or manufacturer ?

We are a manufacturer with a history over 40 years and have realized one-stop service for design, manufacture, installation, debugging and technical training.

2. How long is the delivery time?

For standard machines or Components, it would be 5-10 days; For non-standard machines and customized machines according to clients specific requirements, it would be appointment time.

3. Do you arrange shipment for the machines?

Yes, we will do that. For FOB or CIF price, we will arrange shipment for you. For EXW price, we will assist you in arranging shipment.

4. How about your product after-sales service?

Normally we provide video and written technical support. If necessary, our engineers can also provide on-site service. Our product accessories can be selected according to the actual needs of the customer to choose the most appropriate way to deliver.

5. What kinds of certificate you have?

ISO 9001: 2015 SGS and we can make other certificates according to customers' detailed requirements.

6. How to guarantee the quality and operation before loading?

We have our own quality control department and have advance quality control system while from raw materials to finished products. All the machines and production lines shall be 100% checked and tested before delivery.
