

Stainless 60kg Multi Head Weigh Filler Automatic Weighing Packaging Machine

Our Product Introduction

for more products please visit us on organicfertilizerequipment.com

Basic Information

- Place of Origin: China
- Brand Name: TONGDA
- Certification: ISO, CE
- Model Number: TD-50
- Minimum Order Quantity: 1
- Packaging Details: According to customer requirements
- Delivery Time: 10-15 days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100 units per month

Product Specification

- Product Name: Single Double Bucket Automatic Packing Scale
- Weighing Range: 10-60 (kg/bag)
- Quantitative Error: $\pm 0.1\%$
- Power Supply: 380/220V, 50HZ (adjustable)
- Packaging Speed: 480-600 (bags/hr) (depending On Material Characteristics, Pocket Size And Pocket Opening Size)
- Humidity: $< 95\%$ (no Condensate)
- Highlight: **Stainless 60kg Multi Head Weigh Filler, 60kg Automatic Weighing Packaging Machine, auto weighing packing machine**

Product Description

Automatic Stainless Steel 50kg Feed Bagging Automatic Pouch Fertilizer Packing Scale Machine

The automatic fertilizer packaging scale is a product of the packaging machine that can quantitatively weigh granular or powdery materials and use the weight of the materials to complete the feeding. It has the characteristics of high precision, high speed, strong environmental adaptability, and good system reliability. Packaging scales are widely used in feed, fertilizer, plastic particles, seeds, grain, chemical raw materials, etc.

Automatic fertilizer packaging features:

1. The LCD screen displays various working states, which is simple and intuitive to operate, and the working mode is clear at a glance.
2. The motor drives the spiral filling, and the weighing feedback proportion tracking has high accuracy and stability.
3. The structure and layout of the whole machine are reasonable, and it is very convenient to change the packaging varieties and clean up.
4. Working parameters and product formula can be stored.
5. For the processing of various materials from superfine powder to large particles and multi dust materials, only the accessories need to be replaced. It is equipped with dust collection device to purify the environment.

The product is equipped with a laser detection device to ensure the environment.							
Model	Weighing Range	Packaging Accuracy		Packaging Rate	Microscopic Index Value	Working Environment	
Index	(KG)	Per Time	Average	Single Weighing	(kg)	Temperature	Relative Humidity
TD-50	25-50	<±0.2%	<±0.1%	300-400	0.01	-10~40℃	<95%
Special model	≥100	Customized processing according to user needs					
Remarks	Sewing machine, automatic counting, infrared thread trimming, edge removal machine, you can choose according to customer requirements						

Functional features of bucket metering packaging machine:

1. Equip with safety protection and meet the requirements of enterprise safety management.
2. The bucket metering packaging machine can be selected from all stainless steel models and carbon steel plastic spraying models.
3. The touch screen can store the packaging process parameters of a variety of different products, which can be used at any time when changing products without resetting.
4. The bucket metering packaging machine and metering configuration can automatically complete the whole packaging process of metering, feeding, filling and finished product transportation, and automatically complete counting.

FAQ:

1. Are you trading company or manufacturer ?

We are a manufacturer with a history over 40 years and have realized one-stop service for design, manufacture, installation, debugging and technical training.

2. How long is the delivery time?

For standard machines or Components, it would be 5-10 days; For non-standard machines and customized machines according to clients specific requirements, it would be appointment time.

3. Do you arrange shipment for the machines?

Yes, we will do that. For FOB or CIF price, we will arrange shipment for you. For EXW price, we will assist you in arranging shipment.

4. How about your product after-sales service?

Normally we provide video and written technical support. If necessary, our engineers can also provide on-site service. Our product accessories can be selected according to the actual needs of the customer to choose the most appropriate way to deliver.

5. What kinds of certificate you have?

ISO 9001: 2015 SGS and we can make other certificates according to customers' detailed requirements.

6. How to guarantee the quality and operation before loading?

We have our own quality control department and have advance quality control system while from raw materials to finished products. All the machines and production lines shall be 100% checked and tested before delivery.
