

Poultry Manure Vertical Fertilizer Crusher 4TPH 5TPH Cow Dung Crusher

Our Product Introduction

for more products please visit us on organicfertilizerequipment.com

Basic Information

- Place of Origin: China
- Brand Name: TONGDA
- Certification: ISO,CE
- Model Number: TDFLF-600
- Minimum Order Quantity: 1
- Packaging Details: According to customer requirements
- Delivery Time: 10-15 days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100 units per month

Product Specification

- Product Name: Vertical Fertilizer Crusher
- Capacity(t/h): 3-5 Ton/h
- Machine Type: Fertilizer Crushing
- Application: Farm, Organic Fertilizer Production
- The Machines Classification: Crushing Line
- Power: 22-55KW
- Highlight: Poultry Manure Vertical Fertilizer Crusher, 4TPH Vertical Fertilizer Crusher, 5TPH Cow Dung Crusher

Product Description

Animal Poultry Wet Manure Compound Fertilizer Vertical Crusher Machine

The new type vertical crusher organic fertilizer crusher is a kind of non-screen cloth adjustable crusher designed on the basis of absorbing advanced fine crushing equipment at home and abroad. It is one of the equipment that can be widely used in the crushing of organic fertilizer. The structure is composed of lower frame, casing, upper and lower shaft seats, main shaft, hammer head, hammer head bracket, belt pulley, motor frame, etc. The power is driven by the triangle belt to drive the main shaft to rotate, and the main shaft has two upper and lower bearing seats, and the bearing seat is installed At the upper and lower ends of the casing, the casing assembly is installed on the lower frame. The main shaft is equipped with hammers and hammer holders. The feeding hopper is installed on the upper part of the casing. Disassembly and repair.

Model	Power (kw)	Production Capacity (t/h)	Inlet Size (mm)	Dimensions (mm)
TDFLF-600	22	3-5	400*400	1300*750*1900
TDFLF-800	30	5-8	600*400	1800*1020*2100
TDFLF-1000	37	8-15	650*450	1800*1200*2500
TDFLF-1200	55	15-20	1200*800	2300*1500*3400

It can be used for final crushing of various materials such as mixture, gypsum, coal gangue, slag, copper ore, etc. It is also one of the commonly used crushing equipment in the compound fertilizer industry.

FAQ:

1. Are you trading company or manufacturer ?

We are a manufacturer with a history over 40 years and have realized one-stop service for design, manufacture, installation, debugging and technical training.

2. How long is the delivery time?

For standard machines or Components, it would be 5-10 days; For non-standard machines and customized machines according to clients specific requirements, it would be appointment time.

3. Do you arrange shipment for the machines?

Yes, we will do that. For FOB or CIF price, we will arrange shipment for you. For EXW price, we will assist you in arranging shipment.

4. How about your product after-sales service?

Normally we provide video and written technical support. If necessary, our engineers can also provide on-site service. Our product accessories can be selected according to the actual needs of the customer to choose the most appropriate way to deliver.

5. What kinds of certificate you have?

ISO 9001: 2015 SGS and we can make other certificates according to customers' detailed requirements.

6. How to guarantee the quality and operation before loading?

We have our own quality control department and have advance quality control system while from raw materials to finished products. All the machines and production lines shall be 100% checked and tested before delivery.
