

Compound Fertilizer Chain Crusher 5tph Fertilizer Granule Making Machine

Basic Information

Place of Origin: China
Brand Name: TONGDA
Certification: CE,ISO
Model Number: TDLTF-500

Minimum Order Quantity:

Packaging Details: According to customer requirements

• Delivery Time: 5-10 days

• Payment Terms: L/C, D/A, D/P, T/T, Western Union,

MoneyGram

Supply Ability: 100 units per month

Product Specification

Product Name: Chain Crusher Machine

Application: Organic Fertilizer Equipment Production

• Capacity(t/h): 3-5 Ton/h

Machine Type: Fertilizer Crushing

Power: 11-35KW

 Colour: According To Customer Requirements
 Highlight: Compound Fertilizer Chain Crusher, 5TPH Fertilizer Granule Making Machine,

5TPH Fertilizer Chain Crusher

Product Description

Compound Fertilizer Chain Crusher Machine Fertilizer Making Machine

The chain crusher relies on the high-speed rotary motion of the chain strip driven by the rotor to strike and crush the materials. According to the arrangement direction of the rotor, the chain crusher used to the production of mixed fertilizer has vertical and horizontal two types.

The LP vertical chain crusher is a single rotor structure consisting of a cylindrical outer casing, a rotor, upper and lower support bearings and a

The horizontal chain crusher was developed to overcome the problem of raw material adhere to the wall and clogging problem of the vertical chain crusher.

It has two horizontally arranged parallel rotors, each of them is equipped with the same number of chain sets. When the material enters the chain crusher from the two inlets, it is hit by the rotating chain. then it is crushed at the higher tangential speed inside machine shell and collided with each other. and the crushed material is discharged from the lower discharge outlet.

Model	Power(kw)		Feed Grain Size(mm)	Output Particle Size(mm)
TDLTF-500	11	1-3	<100	≤3mm
TDLTF-600	15	2-5	<100	≤3mm
TDLTF-800	22	5-8	<120	≤3mm
TDLTF-800II	18.5*2	10-15	<150	≤3mm

Product characteristics:

- 1: reasonable design of the inlet and outlet
- 2: Break materials uniformly
- 3: Not easy to stick to the wall, and easy to clean.

FAQ:

1. Are you trading company or manufacturer ?

We are a manufacturer with a history over 40 years and have realized one-stop service for design, manufacture, installation, debugging and technical training.

2. How long is the delivery time?

For standard machines or Components, it would be 5-10 days; For non-standard machines and customized machines according to clients specific requirements, it would be appointment time.

3. Do you arrange shipment for the machines?

Yes, we will do that. For FOB or CIF price, we will arrange shipment for you. For EXW price, we will assist you in arranging shipment.

4. How about your product after-sales service?

Normally we provide video and written technical support. If necessary, our engineers can also provide on-site service. Our product accessories can be selected according to the actual needs of the customer to choose the most appropriate way to deliver.

5. What kinds of certificate you have?

ISO 9001: 2015 SGS and we can make other certificates according to customers' detailed requirements.

6. How to guarantee the quality and operation before loading?

We have our own quality control department and have advance quality control stystem while from raw materials to finished products. All the machines and production lines shall be 100% checked and tested before delivery.
