

Waste Husk Fertilizer Crusher Equipment Stalk Straw Sawdust Chipper

Our Product Introduction

for more products please visit us on organicfertilizerequipment.com

Basic Information

- Place of Origin: China
- Brand Name: TONGDA
- Certification: CE, ISO
- Model Number: TDJGF-400
- Minimum Order Quantity: 1
- Packaging Details: According to customer requirements
- Delivery Time: 7-15 days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100 units per month

Product Specification

- Product Name: Straw Crusher
- Keyword: Fertilizer Crusher Machine
- Power: 15-22KW
- Final Product: 1-10mm Sawdust
- Function: Making Wood Powder Board
- Color: Customer Required
- Highlight: Husk Fertilizer Crusher Equipment, Waste Husk Fertilizer Crusher, Stalk Straw Sawdust Chipper

Product Description

Hot Sell Waste Husk Stalk Straw Chipper Wood Crusher Sawdust Machine

Straw crusher is mainly used for chopping and processing of crop straws and plant straws with branch diameter less than 5cm, and also for chopping and processing of various crop straws and forage. The whole set of equipment is mainly used for chopping and processing of biomass such as cotton stalks, bark, branches, corn stalks, wheat stalks and straw. The processed products can be used for power generation, paper making, wood-based panels, and hexanol extraction.

Straw crusher is made of high-quality materials, the machine has a beautiful appearance and the paint color is even. The size of sawdust can be adjusted in range 1-10mm by changing screen.

Model	Power(kw)	Capacity(m ³ /h)	Dimensions(mm)
TDJGF-400	38	4	3850*950*1050

Advantages:

1. The machine comes with an overload protection device to ensure the personal safety of the operator.
2. The blade is made of high quality special steel and treated by special process. It has high strength and good wear resistance and can be used repeatedly.
3. Detachable design for easy maintenance and easy cleaning.
4. With isolation curtains, less dust, less noise, more environmentally friendly.

Working principle:

Straw crusher can be matched by motor, diesel engine or 30-50 horsepower tractor, the main engine is composed of feeding mechanism, zha cutting mechanism, throwing mechanism, transmission mechanism, walking mechanism, protective device and rack. It has the advantages of reasonable structure, convenient movement, automatic feeding, safety and reliability.

FAQ:

1. Are you trading company or manufacturer ?

We are a manufacturer with a history over 40 years and have realized one-stop service for design, manufacture, installation, debugging and technical training.

2. How long is the delivery time?

For standard machines or Components, it would be 5-10 days; For non-standard machines and customized machines according to clients specific requirements, it would be appointment time.

3. Do you arrange shipment for the machines?

Yes, we will do that. For FOB or CIF price, we will arrange shipment for you. For EXW price, we will assist you in arranging shipment.

4. How about your product after-sales service?

Normally we provide video and written technical support. If necessary, our engineers can also provide on-site service. Our product accessories can be selected according to the actual needs of the customer to choose the most appropriate way to deliver.

5. What kinds of certificate you have?

ISO 9001: 2015 SGS and we can make other certificates according to customers' detailed requirements.

6. How to guarantee the quality and operation before loading?

We have our own quality control department and have advance quality control system while from raw materials to finished products. All the machines and production lines shall be 100% checked and tested before delivery.
