

8-12m3 Composting Stainless Steel Fermentation Commercial Fermentation Tanks

Our Product Introduction

for more products please visit us on organicfertilizerequipment.com

Basic Information

- Place of Origin: China
- Brand Name: TONGDA
- Certification: CE, ISO
- Model Number: TDFJG-10
- Minimum Order Quantity: 1
- Packaging Details: According to customer requirements
- Delivery Time: 5-15 days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 50 units per month

Product Specification

- Product Name: Organic Fertilizer Fermentation Pot
- Applicable Materials: Chicken Manure, Pig Manure, Cow Manure, Sheep Manure, Straw, Etc
- Power: 29.5kw, 500-600°/d
- Minimum Occupied Area: 60m³
- Raw Material: 304/316 Stainless Steel
- Function: Manage Manure And Make Organic Fertilizer
- Highlight: **Composting Stainless Steel Fermentation, 12m3 Commercial Fermentation Tanks, 8m3 Commercial Fermentation Tanks**

Product Description

8-12m³ Fermentation Tank Cow Manure Composting Machine for Organic

The organic fertilizer fermentation tank is an vertical and completely enclosed composting system which professionally manages chicken manure ,pig manure ,etc into high- quality organic fertilizer . The high-value organic fertilizer benefits to different plants and crops.Organic fertilizer is favorable to increase amount of soil organic matter and to improve soil physical environment. It adopts the aerobic fermentation method and makes the organic matter quickly compost in short time with no secondary pollution . The focused terrible smell and harmful gas problem can be perfectly solved by our special designed deodorization system.Our compost tank is made in automatically high-tech production lines ,where the top technical German machines --Trumpf series and Robots from Japan produce high prcision components .All the componets are up to standard .With many years experience accumulated and buyers' feedback, we continously innovate and update our products, and not it can greatly satisfy high requests. Our products can be installed everywhere in the world.

Product features:

1. The equipment is small in size and can be installed outdoors. It does not need a factory building. It is a mobile processing plant, which solves the high cost problems of factory building, long-distance transportation and centralized treatment;
2. Sealed treatment, deodorization 99%,;
3. With good heat preservation, it is not limited by the cold season, and can be fermented normally in the environment below - 20 °C.

Model	Heating Power(kw)	Stirring Power(kw)	Dimensions(mm)
TDFJG-5	4*6	7.5	2200*2200*5300
TDFJG-10	4*6	11	2400*2400*6900
TDFJG-20	8*6	18.5	3700*3700*8500
TDFJG-30	58	7.5	4200*4200*8700
TDFJG-90	58	7.5	5300*5300*9500

Working principle:

The fermentation takes advantage of the decomposition of microorganisms in the nature,uses aerobic microorganism activity through continuous aerobic fermentation in a closed fermenter,decomposes the organic matter and decomposes the material at high temperature,and decomposes the material at high temperature.Thoroughly deodorizing and killing parasites,germs and other harmful substances,the moisture content of the material decreased,the volume decreased,and finally produced a larged amount of organic fertilizer rich in organic matter.

FAQ:

Q1: Are you trading company or manufacturer?

A: We are factory.

Q2: How long is your delivery time?

A: Generally it is 7-10 days if the goods are in stock. Or it is 15-30 days if the goods are not in stock, it is according to quantity.

Q3: What is your payment method?

A: 30% of total prices should be paid by T/T as down payment; 70% balance payment should b paid by T/T before delivery.

Q4: How long is the warrenty of your equipments? Does your company supply the spare parts?

A: The warranty period of fertilizer equipments is one year. And we will supply the spare parts for you at lowest cost.

Q5: If I need the complete fertilizer production line can you help us to build it?

A: Yes, we can help you set up a fertilizer production line and give you related professional advices as long as you need. We had already build many fertilizer production line projects in China & Oversea.
