

Livestock Manure Wheel Compost Turner Machine Organic Fertilizer Equipment

Our Product Introduction

for more products please visit us on organicfertilizerequipment.com

Basic Information

- Place of Origin: China
- Brand Name: TONGDA
- Certification: CE, ISO
- Model Number: TDLPPFD-20000
- Minimum Order Quantity: 1
- Packaging Details: According to customer requirements
- Delivery Time: 5-10 days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100 units per month

Product Specification

- Product Name: Wheel Type Compost Turner
- Application: Fertilizer Fermentation Turning Equipment
- Working Height: 1.5-3m
- Type: Compost Fertilizer Turner
- Working Width: 3-30m
- Usage: Fermentation Processing Equipment
- Highlight: **Wheel Compost Turner Machine, Livestock Manure Organic Fertilizer Equipment, Livestock Manure Wheel Compost Turner**

Product Description

Wheel Type Compost Turner Machine Organic Fertilizer Fermentation Equipment

Wheel type compost turner is suitable for the fermentation with large span and high depth of livestock manure, sludge and garbage, filter mud from sugar mill, waste slag cake and straw sawdust and other organic waste. The machine is also widely used in organic fertilizer plant, compound fertilizer plant, sludge and garbage plant, horticultural farm and biogas plant for fermentation and the removal of water.

Model	Main Motor Power(kw)	Moving Motor Power(kw)	Trolley Motor Power(kw)	Turning Width(mm)	Turning Depth(mm)
TDLPGD-20000	45	5.5*2	2.2*4	20	1.5-2
TDLPGD-20000	45	5.5*2	2.2*4	22	1.5-2

The advantage of Factory price animal dung compost organic fertilizer making line for sale:

1. The high turning depth: the depth can be 1.5-3m;
2. The large turning span: the largest width can be 30m;
3. The low energy consumption: 70% lower than other traditional turning equipment.
4. Turning with no dead angle.
5. High degree of automation.

Introduction to wheel type compost turner machine:

The wheel disc tipping machine adopts the middle chain transmission mechanism to drive two large diameter tipping wheel discs for symmetrical tipping. There is no dead angle and adjustable speed shifting trolley. The left and right displacement can be achieved with low energy consumption. In the case of deep stacking of materials, the special energy-saving transmission mechanism uses less power to complete the high depth and large span turning operation. Its hydraulic lifting system can automatically lift the turntable to ensure that the equipment can move without obstacles. In addition, the supporting fully automatic electrical control system further ensures the convenient operation, safety and reliability of the equipment. The wheel dumper can be customized with different spans according to the width of fermentation tank.

FAQ:

Q1: Are you trading company or manufacturer?

A: We are factory.

Q2: How long is your delivery time?

A: Generally it is 7-10 days if the goods are in stock. Or it is 15-30 days if the goods are not in stock, it is according to quantity.

Q3: What is your payment method?

A: 30% of total prices should be paid by T/T as down payment; 70% balance payment should be paid by T/T before delivery.

Q4: How long is the warranty of your equipments? Does your company supply the spare parts?

A: The warranty period of fertilizer equipments is one year. And we will supply the spare parts for you at lowest cost.

Q5: If I need the complete fertilizer production line can you help us to build it?

A: Yes, we can help you set up a fertilizer production line and give you related professional advices as long as you need. We had already build many fertilizer production line projects in China & Oversea.
