

Animal Manure Turner Fermentation Compost Equipment Chain Plate Compost Turner

Our Product Introduction

for more products please visit us on organicfertilizerequipment.com

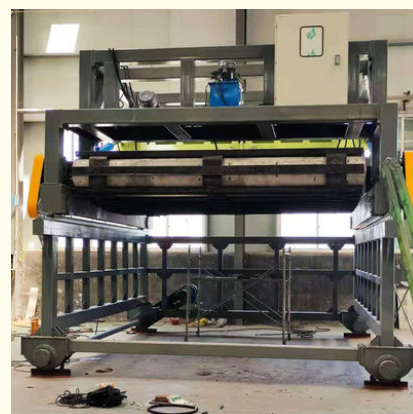

Basic Information

- Place of Origin: China
- Brand Name: TONGDA
- Certification: CE, ISO
- Model Number: TDLBF-5000
- Minimum Order Quantity: 1
- Packaging Details: According to customer requirements
- Delivery Time: 5-10 days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100 units per month

Product Specification

- Product Name: Chain Plate Type Compost Turner
- Function: Fertilizer Waste Fermentation
- Working Speed: 30-90m/h
- Turning Width: 5000mm
- Production Capacity: 100-500m/h
- Raw Material: Organic Material
- Highlight: **Animal Manure Turner, Manure Turner Fermentation Compost Equipment, Chain Plate Compost Turner**

Product Description

Animal Manure Fermentation Compost Turner Machine Chain Plate Compost Turner

The chain plate type compost turner machine has reasonable design, less power consumption of motor, good hard face gear reducer for transmission, low noise and high efficiency. Key parts such as: Chain using imported parts, durable. Hydraulic device is used for lifting and lowering, and the turnover depth can reach 1.8-3 meters. Material vertical lifting height can reach 2 meters, stay in the air for a long time, without aeration, other forms of dumper can do three fermentation tanks, using chain plate dumper, one is enough.

Main features of compost turner:

- 1.High efficiency, smooth operation, durable, and even turning.
- 2.It can be controlled by control cabinet manually or automatically.
- 3.With a soft start, low-impact loading start.
- 4.The compost turning machine is equipped with a hydraulic lifting system
- 5.Durable pulling teeth can break and mix the material
- 6.End-of-travel limit switch ensures the safety of the rolling.

Model	TDLBF-4000	TDLBF-5000
Turning Power(kw)	22kw*2	22kw*2
Moving Power(kw)	3	2.2kw*2
Turning Speed(m/h)	30-90	30-90
Lifting Power(kw)	3	3
Turning Width(mm)	4000	5000
Turning Depth(mm)	1800	2000
Turning Teeth Thickness(mm)	8	10

Features:

1. Adopt chain drive, rolling support bracket structure, turn over throwing resistance small energy saving, suitable for deep groove operation.
2. Flip plate equipped with flexible tensioning and elastic shock absorption system, protecting the transmission system and working parts to work efficiently.
3. A removable tooth blade with wear-resistant curved surface is installed on the turning and throwing plate.
4. When turning and throwing, the material stays on the supporting plate for a long time, and is scattered in the high position, which has sufficient contact with air and easy to reduce moisture.
5. Through transverse and longitudinal displacement can be realized in any position in the slot flip operation, flexible.
6. The lifting and lowering of turning and throwing parts are controlled by hydraulic system, flexible and safe and fast.

FAQ:

Q1: Are you trading company or manufacturer?

A: We are factory.

Q2: How long is your delivery time?

A: Generally it is 7-10 days if the goods are in stock. Or it is 15-30 days if the goods are not in stock, it is according to quantity.

Q3: What is your payment method?

A: 30% of total prices should be paid by T/T as down payment; 70% balance payment should be paid by T/T before delivery.

Q4: How long is the warranty of your equipments? Does your company supply the spare parts?

A: The warranty period of fertilizer equipments is one year. And we will supply the spare parts for you at lowest cost.

Q5: If I need the complete fertilizer production line can you help us to build it?

A: Yes, we can help you set up a fertilizer production line and give you related professional advices as long as you need. We had already build many fertilizer production line projects in China & Oversea.
