

Cow Manure Fertilizer Packaging Machine Granule Automatic Multihead Weigher

Basic Information

- Place of Origin: China
- Brand Name: TONGDA
- Certification: ISO,CE
- Model Number: TD-50
- Minimum Order Quantity: 1
- Packaging Details: According to customer requirements
- Delivery Time: 10-15 days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100 units per month

Product Specification

- Product Name: Automatic Packing Scale
- Weighing Range: 200-2000kg/bag(adjustable)
- Accuracy: +/-0.2%
- Power Supply: 220v/380v 50hz
- Air Pressure: 0.55-0.65MPa
- Operation Environment: -20~40°C
- Highlight: Cow Manure Fertilizer Packaging Machine, Granule Automatic Multihead Weigher, Fertilizer Automatic Multihead Weigher

Product Description

Powder/granule Automatic Cow Manure Organic Fertilizer Packaging Scale Machine

Our automatic packing machine apply to open rational packing of powder and granule materials, it is widely use in pellets grain, food light industry, plastic building material, chemical industry, Except for manual cap bag, fast-slow adding material, fixed quantity, clamping bag discharge bag adopt automatic control. This equipment with weighting fast high precision, good stability easy operation ect.

Bag type:

Our packing machine can working with the automatic sewing machine closed the woven bags, kraft bags, paper bags or sacks by thread stitching and automatic thread cut.

Or the heat sealing machine for lining/ plastic bags sealing.

Futures:

- 1, Installation 3pcs load cell, each load cell max weight 200kg, IP67 grade, high weighing accuracy, working more stable.
- 2, Dual control system, the CHIMEI weighing instrument and PLC control system.
- 3, Color touch screen HMI, easy operation.
- 4, PLC system operation by 10" touch screen.
- 5, Installation 2pcs of proximity switch and 2pcs cylinder, bag clamp more tighter, more safe.
- 6, Automatic bag sewing and sewing conveyor speed adjustable.
- 7, Parts of famous brand, such as Delta, Schneider, CHNT, AirTAC.

Model	Weighing Range	Packaging Accuracy		Packaging Rate	Microscopic Index Value	Working Environment	
Index	(KG)	Per Time	Average	Single Weighing	(kg)	Temperature	Relative Humidity
TD-50	25-50	<±0.2%	<±0.1%	300-400	0.01	-10~40℃	<95%
Special model	≥100	Customized processing according to user needs					
Remarks	Sewing machine, automatic counting, infrared thread trimming, edge removal machine, you can choose according to customer requirements						

Functional features of bucket metering packaging machine:

1. Equip with safety protection and meet the requirements of enterprise safety management.
2. The bucket metering packaging machine can be selected from all stainless steel models and carbon steel plastic spraying models.
3. The touch screen can store the packaging process parameters of a variety of different products, which can be used at any time when changing products without resetting.
4. The bucket metering packaging machine and metering configuration can automatically complete the whole packaging process of metering, feeding, filling and finished product transportation, and automatically complete counting.

Package Machine Working Process: Manual giving the empty bags-Automatic bag clamp-Automatic feeding-Automatic weighing-Automatic discharge-Automatic bag release-Bag conveying to the closed machine-Bag closed by sewing or heat sealing.

FAQ:

1. Are you trading company or manufacturer ?

We are a manufacturer with a history over 40 years and have realized one-stop service for design, manufacture, installation, debugging and technical training.

2. How long is the delivery time?

For standard machines or Components, it would be 5-10 days; For non-standard machines and customized machines according to clients specific requirements, it would be appointment time.

3. Do you arrange shipment for the machines?

Yes, we will do that. For FOB or CIF price, we will arrange shipment for you. For EXW price, we will assist you in arranging shipment.

4. How about your product after-sales service?

Normally we provide video and written technical support. If necessary, our engineers can also provide on-site service. Our product accessories can be selected according to the actual needs of the customer to choose the most appropriate way to deliver.

5. What kinds of certificate you have?

ISO 9001: 2015 SGS and we can make other certificates according to customers' detailed requirements.

6. How to guarantee the quality and operation before loading?

We have our own quality control department and have advance quality control system while from raw materials to finished products. All the machines and production lines shall be 100% checked and tested before delivery.
