

## Chicken Manure Groove Type Compost Turner Fertilizer Waste Fermentation

### Basic Information

- Place of Origin: China
- Brand Name: TONGDA
- Certification: CE, ISO
- Model Number: TDLPGD-20000
- Minimum Order Quantity: 1
- Packaging Details: According to customer requirements
- Delivery Time: 10-15 days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100 units per month

### Product Specification

- Product Name: Groove Type Compost Turner
- Function: Fertilizer Waste Fermentation
- Length: 2.5-4m
- Voltage: 380V/220V
- The Speed Of Turning Teeth: 90-100r/min
- Turning Height: 0.7-1.1m
- Highlight: **Manure Groove Type Compost Turner, Chicken Manure Compost Turner, Fertilizer manure compost turner**

## Product Description

### Chicken Manure Organic Fertilizer Fermentation Machine Groove Type Compost Turner

The groove type compost turner are also called as guide rail type compost turner, which is usually used in the fermentation and turning of the poultry manure, sludge and garbage, filter mud, sugar dregs cake, straw sawdust and other organic waste. It is widely used in the fermentation and compost job of organic fertilizer plant, compound fertilizer plant, sludge and waste treatment plant, garden spot, agaricus bisporus growing plant, etc..

It is suitable for aerobic fermentation, and can be used in conjunction with solar energy fermentation room, fermentation tank and moving machine. It can be used together with the moving machine to realize the function of many of slots for one machine. Its fermented trough can be continuously discharged or batch discharge, high efficiency, smooth operation, strong and durable, and even throwing.

Control cabinet centralized control, it can achieve manual or automatic control function, the shovel durable, the material has a certain number of broken and mixed functions, limit stroke switch, it can play a safe and limited role.

Model	Main Motor Power(kw)	Moving Motor Power(kw)	Trolley Motor Power(kw)	Turning Width(mm)	Turning Depth(mm)
TDLFPD-20000	45	5.5*2	2.2*4	20	1.5-2

#### Main Features:

- 1.Automation control. Centralized control by the control cabinet, so that can realize the function of manual or automatic control.
- 2.Solid and durable. The teeth are durable and has the ability of breaking and mixing the compost materials.
- 3.The groove type compost turner is suitable for aerobic fermentation, and it can match with solar energy fermentation chamber,fermentation tank and transfer machine.
- 4.Compact structure and advanced technology. The use of some beneficial microorganisms can promote the rapid decomposition of organic wastes such as livestock manure.

#### FAQ:

##### Q1: Are you trading company or manufacturer?

A: We are factory.

##### Q2: How long is your delivery time?

A: Generally it is 7-10 days if the goods are in stock. Or it is 15-30 days if the goods are not in stock, it is according to quantity.

##### Q3: What is your payment method?

A: 30% of total prices should be paid by T/T as down payment; 70% balance payment should be paid by T/T before delivery.

##### Q4: How long is the warranty of your equipments? Does your company supply the spare parts?

A: The warranty period of fertilizer equipments is one year. And we will supply the spare parts for you at lowest cost.

##### Q5: If I need the complete fertilizer production line can you help us to build it?

A: Yes, we can help you set up a fertilizer production line and give you related professional advices as long as you need. We had already build many fertilizer production line projects in China & Oversea.
