

Forklift Fertilizer Feeding Machine 5-10 Ton/H NPK Production Line

Basic Information

Place of Origin: China
Brand Name: TONGDA
Certification: ISO,CE
Model Number: TDCW-2030

Minimum Order Quantity:

Packaging Details: According to customer requirements

• Delivery Time: 5-15 days

• Payment Terms: L/C, D/A, D/P, T/T, Western Union,

MoneyGram

Supply Ability: 100 units per month

Product Specification

• Type: Forklift Feeding Fertilizer

• Core Components: PLC, Gear

• Function: Fertilizer Production Line

Colour: Customized According To Customer

Requirements

Production Capacity: 5-10ton/hVoltage: 220V/380V

Highlight: Forklift Fertilizer Feeding Machine,
 10TpH Fertilizer Feeding Machine,

NPK Fertilizer Feeding Machine

Product Description

Storage Silo New Type Organic Fertilizer Forklift Feeding Fertilizer Manufacture

Forklift feeder is a kind of conveying equipment for bulk materials. This equipment can transport both fine materials with particle size less than 5mm and large materials with particle size more than 1m. It has the functions of strong adaptability, adjustable conveying capacity and continuous and uniform conveying of various materials. It is widely used in agriculture, building materials, chemical industry, metallurgy and other departments. The forklift feeder newly developed by the aquaculture industry has outstanding advantages such as large traction, small power consumption, small wear, less leakage, stable operation, reliable operation, long service life, and convenient maintenance. The product structure of different manufacturers is similar in technology.

Features:

- 1 The forklift feeding bin is a kind of conveying equipment for bulk materials.
- 2 It is widely used in agriculture, building materials, chemical industry, metallurgy and other work sectors.
- 3 It has the functions of strong adaptability, adjustable conveying capacity and continuous and uniform conveying of various materials.
- 4 It is used to quantitatively, uniformly and continuously feed the bulk, granular and powdery materials from the storage bin or funnel to the receiving device, which is an essential equipment for automatic production.

Model	Power	Capacity(t/h)	Dimensions(mm)
TDCW-2030	Mixing power: (2.2kw)	3-10t/h	4250*2200*2730
	Vibration power: (0.37kw)		
	Output power: (4kw frequency		
	conversion)		
TDCW-2040	Mixing power: (2.2kw)	10-20t/h	4250*2200*2730
	Vibration power: (0.37kw)		
	Output power: (4kw frequency		
	conversion)		

The forklift feeding bin has outstanding advantages such as low power consumption, low wear, less material leakage, stable operation, reliable operation, long service life and convenient maintenance.

FAQ:

1. Are you trading company or manufacturer?

We are a manufacturer with a history over 40 years and have realized one-stop service for design, manufacture, installation, debugging and technical training.

2. How long is the delivery time?

For standard machines or Components, it would be 5-10 days; For non-standard machines and customized machines according to clients specific requirements, it would be appointment time.

3. Do you arrange shipment for the machines?

Yes, we will do that. For FOB or CIF price, we will arrange shipment for you. For EXW price, we will assist you in arranging shipment.

4. How about your product after-sales service?

Normally we provide video and written technical support. If necessary, our engineers can also provide on-site service. Our product accessories can be selected according to the actual needs of the customer to choose the most appropriate way to deliver.

5. What kinds of certificate you have?

ISO 9001: 2015 SGS and we can make other certificates according to customers' detailed requirements.

6. How to guarantee the quality and operation before loading?

We have our own quality control department and have advance quality control stystem while from raw materials to finished products. All the machines and production lines shall be 100% checked and tested before delivery.
