

Husbandry Continuous Fertilizer Mixing Equipment 1000L Single Shaft Mixer

Our Product Introduction

for more products please visit us on organicfertilizerequipment.com

Basic Information

- Place of Origin: China
- Brand Name: TONGDA
- Certification: CE, ISO
- Model Number: TDDJ-0730
- Minimum Order Quantity: 1
- Packaging Details: According to customer requirements
- Delivery Time: 3-15 days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100 units per month

Product Specification

- Product Name: Fertilizer Single Shaft Mixer
- Range Of Spindle Speed(r.p.m): 1449 - 1450 R.p.m
- Voltage: 220V Or 380V
- Barrel Volume: 1000L
- Usage: Mixing Paste Proucts
- Max Loading Volume: 3000L
- Highlight: **Continuous Fertilizer Mixing Equipment, Husbandry Fertilizer Mixing Equipment, 1000L Single Shaft Mixer**

Product Description

Farm Animal Husbandry Continuous Mixing Single Shaft Chemical Fertilizer Mixer

Farm Animal Husbandry Continuous Mixing Single Shaft Chemical Fertilizer Mixer

Single-shaft mixers are mainly used in organic fertilizers, compound fertilizers and dust collectors in thermal power plants, and can also be used in chemical metallurgy, mining, building materials and other industries.

The advantages of single-shaft mixer are:

1. It has high mixing efficiency and small floor area. The spiral blade is made of high-strength special alloy.
2. The single-shaft mixer is driven by a reducer, with stable rotation and low noise.
3. The single-shaft mixer feeds from the top and discharges from the bottom, with reasonable structure.
4. The sealing between the joint surfaces is tight and the operation is stable.

Product structure:

The horizontal mixer is mainly composed of mixing shaft, mixing page, mixing chamber, motor and reducer.

Model	Rotary Speed(r/min)	Production Capacity(m³/h)	Supporting Power(kw)
TDDJ-0730	45	4	11

The Features of portable mixer:

1. Raw material dealing: various materials
2. Application: organic fertilizer production line, compound fertilizer production line, chemical metallurgy, mining, building materials and other industries.
3. Capacity: 5-8t/h
4. Advantages: The mixing efficiency is high and the area is small. The spiral blade adopts high – wear special alloy; Adopts reducer transmission, which is stable and has low noise; It has reasonable structure; The joint surfaces are tightly sealed and run smoothly.

FAQ:

1. Are you trading company or manufacturer ?

We are a manufacturer with a history over 40 years and have realized one-stop service for design, manufacture, installation, debugging and technical training.

2. How long is the delivery time?

For standard machines or Components, it would be 5-10 days; For non-standard machines and customized machines according to clients specific requirements, it would be appointment time.

3. Do you arrange shipment for the machines?

Yes, we will do that. For FOB or CIF price, we will arrange shipment for you. For EXW price, we will assist you in arranging shipment.

4. How about your product after-sales service?

Normally we provide video and written technical support. If necessary, our engineers can also provide on-site service. Our product accessories can be selected according to the actual needs of the customer to choose the most appropriate way to deliver.

5. What kinds of certificate you have?

ISO 9001: 2015 SGS and we can make other certificates according to customers' detailed requirements.

6. How to guarantee the quality and operation before loading?

We have our own quality control department and have advance quality control system while from raw materials to finished products. All the machines and production lines shall be 100% checked and tested before delivery.
