Features of organic fertilizer packing machine/packaging machine for fertilizer:

- 1.High precision: With high precision weighing controller, good stability.
- 2.Good integrity: Small footprint, flexible installation.
- 3.Adjustable speed: The feeding mode of powder materials equipment is screw feeding, fast adding and slow feeding is realized by controller, and feeding speed can be arbitrarily set.
- 4.Environmental protection: Closed internal circulation system, effectively prevent dust flying, improve the working environment, and protect the health of operating personnel.
- 5.Reasonable structure: The automatic machine has the advantages of compact structure and small size, and can be used for making fixed or moving machines according to the requirements of users.
