

500L Horizontal Blender Fertilizer Double Shaft Mixer For Animal Feed

Basic Information

- Place of Origin: China
- Brand Name: TONGDA
- Certification: CE, ISO
- Model Number: TDWJ-0715
- Minimum Order Quantity: 1
- Packaging Details: According to customer requirements
- Delivery Time: 3-10 days delivery
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100 units per month

Product Specification

- Product Name: Horizontal Mixer Machine
- Color: Customers' Demand
- Machine Type: Mixng Machine
- Material: SUS304, SUS304L, 201/304L/316L/Carbon Steel
- Max. Loading Volume (L): 500L
- Additional Capabilities: Drying
- Highlight: **Fertilizer Double Shaft Mixer, 500L Horizontal Blender, 500L Double Shaft Mixer**

Product Description

Fertilizer Mixing Machine Double Shaft Mixer Fertilizer Horizontal Blending Machine

The horizontal mixer motor adopts high quality copper wire motor. Cycloidal pinwheel reducer, long life, low noise; or cylindrical gear reducer, large torque. The transmission parts are linked by industrial V-belts, and the replacement of accessories is convenient and quick.

Product features:

The horizontal mixer makes the materials fully mixed, thus improving the mixing uniformity; With a novel rotor structure, the minimum clearance between the rotor and the bright body can be adjusted to close to zero, effectively reducing the residual amount of materials; It can break large materials, with more reasonable overall structure and beautiful appearance, and can be installed and maintained by operation and maintenance personnel.

Model	TDWJ-7015	TDWJ-9015	TDWJ-1630
Dimensions(mm)	2350*1200*1000	2300*1200*1000	3950*1720*2100
Motor Power(kw)	7.5	11	22
Speed Reducer Model	ZQ350-23.34	ZQ350-23.34	ZQ500-48.57
Stirring Speed(r/min)	46	39	21
Main Plate Thickness(mm)	4	4	10
Capacity(t/h)	2-3	3-5	10-15

Product advantages:

Horizontal mixer fertilizer mixer is a new generation of mixing equipment of our company. With high mixing uniformity and low residue, it is suitable for mixing formula feed, concentrated feed and additive premix. The specific characteristics are: materials are fully mixed. Thus, the mixing uniformity is improved; With a novel rotor structure, the minimum clearance between the rotor and the shell can be adjusted to close to zero, effectively reducing the residual amount of materials; The machine is equipped with grease adding pipeline, which has more reasonable overall structure, beautiful appearance and convenient operation and maintenance.

FAQ:

Q: Can It Be Customized ?

A: of course. We can process and produce according to the actual needs of users, so that customer satisfaction is our aim.

Q: What About The Delivery Time ?

A: Usually we will deliver the goods within 20 days. The specific delivery time needs to be negotiated. The delivery time is slightly different for different quantities and different production requirements.

Q: What About the Warranty ?

A: Within 1 year from the factory. If the parts are faulty or damaged (due to quality problems, except for worn parts), our company will provide these parts free of charge.

Q: What About The Terms Of Payment ?

A: 100% wire transfer, Signature of L / C Western Union or trade guarantee order recommendation before shipment.
