

## 2-30 TPH Chain Mill Crusher Fertilizer Compost Crusher Machine

Our Product Introduction

for more products please visit us on [organicfertilizerequipment.com](http://organicfertilizerequipment.com)

### Basic Information

- Place of Origin: China
- Brand Name: TONGDA
- Certification: CE, ISO
- Model Number: TDLTF-600
- Minimum Order Quantity: 1
- Packaging Details: According to customer requirements
- Delivery Time: 3-5 days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 300 units per month

### Product Specification

- Product Name: Chain Crusher Machine
- Capacity(t/h): 2-30
- Application: Fertilizer Industry
- Power: 5.5-55kw
- Output: 2000-30000(kg/h)
- Key Selling Points: Easy To Operate
- Highlight: 30 TPH Chain Mill Crusher,  
2 TPH Chain Mill Crusher,  
Fertilizer Compost Crusher Machine

## Product Description

### Chain Crusher 600-5000(kg) High Quality Compound Fertilizer Production Line

The chain crusher is applicable to the crushing of lumps in the production of compound fertilizer, and is also widely used in chemical, building materials, mining and other industries. During the crushing process, the machine uses high-strength wear-resistant carbide chain plates with synchronous speed. The design of the inlet and outlet is reasonable. The crushed materials are uniform, not easy to adhere to the wall, and easy to clean.

#### Product use:

LP series chain crusher is applicable to the crushing of block materials with medium hardness in the production process of compound fertilizer, organic-inorganic compound fertilizer and organic fertilizer, and is also widely used in chemical, building materials, mining and other industries and briquette processing plants. It is suitable for crushing various bulk organic fertilizer raw materials (various bulk animal manure, industrial sludge, etc. before and after fermentation), fertilizer and other medium-hard bulk materials. Bulk fertilizer can be broken into granular fertilizer with an average diameter of 0.7~4mm.

Model	Power(kw)	Production Capacity(t/h)	Feed Grain Size(mm)	Output Particle Size(mm)
TDLTF-500	11	1-3	<100	≤3mm
TDLTF-600	15	2-5	<100	≤3mm
TDLTF-800	22	5-8	<120	≤3mm
TDLTF-800II	18.5*2	10-15	<150	≤3mm

#### Product introduction:

The chain crusher can be divided into vertical chain crusher and horizontal chain crusher according to the installation form. The vertical chain crusher is single rotor and the horizontal chain crusher is double rotor. The chain crusher is applicable to the crushing of lumps in the production of compound fertilizer and the crushing of returned materials in the production of fertilizer.

#### FAQ:

##### Q1. Are you factory or trade company?

A1. We are manufacturer, we also supply trade service.

##### Q2. What about your price?

A2. We always supply the products with low price, because we believe this is the way to build long-term business and earn good reputation. Our price is 3%-5% lower than the average market price.

##### Q3. What payment terms do you accept?

A3. Welcome clients to place orders by Alibaba Trade Assurance! Other payment ways such as T/T, L/C, D/P, etc can be negotiated.

##### Q4. How about your delivery time?

A4: Generally, it will take 15-20 working days after receiving your advance payment. The specific delivery time depends on the items and the quantity of your order.

##### Q5: what will you do if the machine is broken down?

A5: The Products warranty is one year. We will provide the technical advice and find the solution immediately for you when the machine is in trouble. For those wear parts, we guarantee the high quality parts for long-term supply.

##### Q6: How do you make our business long-term and good relationship?

A6: We keep good quality and competitive price to ensure our customers benefit .
