

Fertilizer Manure Batcher Machine 5 TPH Aggregate Batching Plant

Our Product Introduction

for more products please visit us on organicfertilizerequipment.com

Basic Information

- Place of Origin: China
- Brand Name: TONGDA
- Certification: CE, ISO
- Model Number: TDHL-1220
- Minimum Order Quantity: 1
- Packaging Details: According to customer requirements
- Delivery Time: 5-10 days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram

Product Specification

- Product Name: Cache Silo
- Material: Carbon Steel Or Stainless Steel
- Capacity(t/h): 2-5
- Function: Automatic Production Line
- Core Components: PLC, Gear
- Dimension(L*W*H): 230*140*240cm
- Highlight: **Fertilizer Manure Batcher Machine, 5 TPH Aggregate Batching Plant, 5 TPH Manure Batcher Machine**

Product Description

Widely Applicable Thickened Steel Plate Organic Fertilizer Manure Making Machine Cache Silo

Organic Fertilizer Production Line Manufacturer Forklift Feeding Machine Cache Silo:

It is mainly used for conveying materials of loader loading of powder materials and other organic and inorganic raw materials in fertilizer industry. It also has the function of breaking and mixing loose bulk material. The main engine can be used as a speed regulating motor, and this hopper is suitable for the uniform feeding of the crusher in fertilizer production. The machine is simple in operation, no need for civil construction, good flexibility and saving labors.

Model	Capacity(t/h)	Dimensions(mm)
TDHL-1220	2-5	2300*1400*2400

Automatic batching system is an automatic batching device that can be used together with BB fertilizer equipment, organic fertilizer equipment, compound fertilizer equipment and compound fertilizer equipment. It can complete automatic batching according to customer requirements. This machine is used for weighing, distributing and mixing various raw materials, instead of manual bench scale or volume measurement. It has the characteristics of high measuring accuracy, fast distribution efficiency and high degree of automation, and is the main part of complete fertilizer production equipment. The product adopts microcomputer control, electronic monitoring and digital prompt, with good control function and convenient operation, which is the guarantee of fertilizer product content.

FAQ:

Q1. Are you factory or trade company?

A1: We are manufacturer, we also supply trade service.

Q2. What about your price?

A2: We always supply the products with low price, because we believe this is the way to build long-term business and earn good reputation. Our price is 3%-5% lower than the average market price.

Q3. What payment terms do you accept?

A3: Welcome clients to place orders by Alibaba Trade Assurance! Other payment ways such as T/T, L/C, D/P, etc can be negotiated.

Q4. How about your delivery time?

A4: Generally, it will take 15-20 working days after receiving your advance payment. The specific delivery time depends on the items and the quantity of your order.

Q5: what will you do if the machine is broken down?

A5: The Products warranty is one year. We will provide the technical advice and find the solution immediately for you when the machine is in trouble. For those wear parts, we guarantee the high quality parts for long-term supply.

Q6: How do you make our business long-term and good relationship?

A6: We keep good quality and competitive price to ensure our customers benefit .
