

## Chicken Manure Vertical Crusher 15kw Fertilizer Crusher Machine

Our Product Introduction

for more products please visit us on [organicfertilizerequipment.com](http://organicfertilizerequipment.com)

### Basic Information

- Place of Origin: China
- Brand Name: TONGDA
- Certification: ISO, CE
- Model Number: TDFLF-600
- Minimum Order Quantity: 1
- Packaging Details: According to customer requirements
- Delivery Time: 3-7 days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100 units per month

### Product Specification

- Product Name: Vertical Fertilizer Crusher
- Output Size: 3-5mm
- Voltage: 380V, 60HZ
- Power: 11-15kw
- Size After Crushing:  $\leq 0.7$  Mm
- Motor Type: AC Motor
- Highlight: Chicken Manure Vertical Crusher, 15kw Fertilizer Crusher Machine, 15kw Vertical Crusher

## Product Description

### New Type Vertical Crusher Chicken Manure Semi Wet Material Crusher Machine

The successful development of the organic fertilizer crusher has played a key role in shortening the technological process, reducing equipment investment and saving operating costs for the production of bio-organic fertilizer and compost. The products are made of chicken, pig and cow dehydrated machine dung, organic matter, municipal garbage and sludge as raw materials, without any chemical components. The chicken and pig have poor digestion ability, and can only consume 25% of the nutrient components, while the other 75% of the nutrient components in the feed are discharged with the feces, so that the dry products contain nitrogen, phosphorus, potassium, organic matter, amino acid, protein and other components.

Model	Power (kw)	Production Capacity (t/h)	Inlet Size (mm)	Dimensions (mm)
TDFLF-600	22	3-5	400*400	1300*750*1900
TDFLF-800	30	5-8	600*400	1800*1020*2100
TDFLF-1000	37	8-15	650*450	1800*1200*2500
TDFLF-1200	55	15-20	1200*800	2300*1500*3400

#### Product features:

1. The fertilizer crusher has the characteristics of reasonable structure, fast feeding, stable performance and strong impact resistance.
2. It can be widely used to break leaves, bagasse, broken bamboo, wood chips, waste paper and other fibers as well as hard materials such as broken bricks, tiles, crushed stones, coal cinders, etc., without affecting the breaking effect of soft and hard materials.
3. In the process of crushing, high-strength wear-resistant hard alloy chain plate with synchronous speed is adopted. The design of the inlet and outlet is reasonable. The crushed materials are uniform, not easy to stick to the wall, and easy to clean.
4. The crusher adopts the latest technology, selects high-quality steel, and carries out system optimization design, with large output and high reliability.

#### FAQ:

##### 1. Are you trading company or manufacturer ?

We are a manufacturer with a history over 40 years and have realized one-stop service for design, manufacture, installation, debugging and technical training.

##### 2. How long is the delivery time?

For standard machines or Components, it would be 5-10 days; For non-standard machines and customized machines according to clients specific requirements, it would be appointment time.

##### 3. Do you arrange shipment for the machines?

Yes, we will do that. For FOB or CIF price, we will arrange shipment for you. For EXW price, we will assist you in arranging shipment.

##### 4. How about your product after-sales service?

Normally we provide video and written technical support. If necessary, our engineers can also provide on-site service. Our product accessories can be selected according to the actual needs of the customer to choose the most appropriate way to deliver.

##### 5. What kinds of certificate you have?

ISO 9001: 2015 SGS and we can make other certificates according to customers' detailed requirements.

##### 6. How to guarantee the quality and operation before loading?

We have our own quality control department and have advance quality control system while from raw materials to finished products. All the machines and production lines shall be 100% checked and tested before delivery.
