

Poultry Manure Forklift Compost Turner Cow Dung Compost Machine

Our Product Introduction

for more products please visit us on organicfertilizerequipment.com

Basic Information

- Place of Origin: China
- Brand Name: TONGDA
- Certification: CE,ISO
- Model Number: TDCCFD-918
- Minimum Order Quantity: 1
- Packaging Details: According to customer requirements
- Delivery Time: 5-10 days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100 units per month

Product Specification

- Name: Forklift Type Compost Turner
- Function: Compost Turner Mixing Machine
- Power: 37/42 KW
- Color: Customer's Requirement
- Drive Type: 4x4 Wheel Drive
- Application Field: Farm,organic Fertilizer Plant
- Highlight: Forklift Cow Dung Compost Machine, Poultry Manure Forklift Compost Turner, Cow Dung Forklift Compost Turner

Product Description

New Condition Poultry Manure Processing Cow Dung Forklift Compost Turner

The forklift compost turner is a four-in-one multifunctional tipper that integrates fermentation, mixing, crushing and displacement. It adopts four-wheel walking design, which can move forward, reverse, turn, and drive by one person.

The technology of rotating blade shaft pair inside the forklift is to integrate the crushing function of materials in the later stage of fermentation. With the gradual dehydration of the materials, the addition of a crusher has greatly improved the crushing efficiency and reduced the cost, and fundamentally solved the production requirements of the crusher dedicated to microbial aerobic fermentation materials. It can effectively mix the sticky fermentation materials, microbial fermentation agents and straw powder, stir the fermentation materials evenly and thoroughly, and make the bacteria and raw materials fully contact.

Model	TDCCFD-918(Manual operation)	TDCCFD-920(Automatic operation)
Number of cylinders	4	4
Discharge	2.545	2.545
Power/Speed(kw/r/min)	47/3200	47/3200
Max Torque/Speed(N.m/r/min)	157/200~2200	157/200~2200
Forklift Bucket Width(mm)	1300	1300
Diesel Engine Model	4DW81-37G2	4DW81-37G2
Cooling Method	Closed Forced Water Cooling	Closed Forced Water Cooling

Scope of application:

Forklift compost turner is applicable to aerobic fermentation and tipping of organic wastes such as livestock and poultry manure, sludge garbage, sugar factory filter mud and straw sawdust; It is widely used in organic fertilizer plants, compound fertilizer plants and sludge waste plants.

Machine advantages:

1. The fermentation materials can be overturned by the forklift tipper, and can be transported to any place freely. The moving distance is not limited. It can be poured from one fermentation tank to another fermentation tank for fermentation, which is more cost-effective.
2. Deliver the materials to the designated place, turn on the crushing function, and the raw materials will leak out from the bottom of the forklift to achieve the effect of crushing, mixing and overturning, improve the fineness and uniformity of the compost materials, and reduce the nutrient volatilization.
3. This machine is specially used for the technological process of microbial aerobic fermentation materials, which can effectively decompose the viscous fermentation products thoroughly. This machine can stir fermented materials 200-400m per hour³, Converted into finished fertilizer is 100-200t.

FAQ:

1. Are you trading company or manufacturer ?

We are a manufacturer with a history over 40 years and have realized one-stop service for design, manufacture, installation, debugging and technical training.

2. How long is the delivery time?

For standard machines or Components, it would be 5-10 days; For non-standard machines and customized machines according to clients specific requirements, it would be appointment time.

3. Do you arrange shipment for the machines?

Yes, we will do that. For FOB or CIF price, we will arrange shipment for you. For EXW price, we will assist you in arranging shipment.

4. How about your product after-sales service?

Normally we provide video and written technical support. If necessary, our engineers can also provide on-site service. Our product accessories can be selected according to the actual needs of the customer to choose the most appropriate way to deliver.

5. What kinds of certificate you have?

ISO 9001: 2015 SGS and we can make other certificates according to customers' detailed requirements.

6. How to guarantee the quality and operation before loading?

We have our own quality control department and have advance quality control system while from raw materials to finished products. All the machines and production lines shall be 100% checked and tested before delivery.
