

## Cow Dung Fermentation Compost Equipment Crawler Compost Turner Machine

Our Product Introduction

for more products please visit us on [organicfertilizerequipment.com](http://organicfertilizerequipment.com)

### Basic Information

- Place of Origin: China
- Brand Name: TONGDA
- Certification: ISO, CE
- Model Number: TDLDF-2400
- Minimum Order Quantity: 1
- Packaging Details: According to customer requirements
- Delivery Time: 5-10 days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100 units per month

### Product Specification

- Features: Fertilizer Fermentation
- Product Name: Crawler Type Compost Turner
- Working Height: 1500-3000mm
- Color: Customers' Demand
- Production Capacity: 97%
- Raw Material: Organic Manure
- Highlight: Cow Dung Fermentation Compost Equipment, Cow Dung Crawler Compost Turner, Crawler Compost Turner Machine

## Product Description

### Crawler Type Compost Turner Cow Dung Composting Machine Fertilizer Production Line

The crawler type compost turner is durable, powerful, technical, large in output, strong in tipping capacity, high in automation, and easy to operate. It is a professional tipping equipment for converting organic materials into organic fertilizer by aerobic fermentation.

The crawler type compost turner materials with high moisture content will not slip and crawl in place, and will not change tires for life. The pull rod operates 180° turn in place, eliminating the trouble that the steering wheel cannot turn around in place, saving space and artificial diesel. Track-type dumper is a kind of large dumper, with full hydraulic operation system and pull rod steering wheel operation.

#### Structural features:

This equipment is mainly used to flip and supply oxygen to the material pile under the condition of strip fermentation. Horizontal spiral tipping structure, hydraulic lifting, crawler walking.

Model	TDLDF-2400	TDLDF-2600	TDLDF-3000	TDLDF-3000 (Full Hydraulic)
Turning Width(mm)	2400	2600	3000	3000
Turning Height(mm)	600-1000	1100-1300	1300-1500	1600-1800
Row Spacing(mm)	800-1000	800-1000	800-1000	100-1000
Max.Diameter of Material Particles(mm)	250	250	250	250
Power(horsepower)	75	116	136	143
Working Knife Diameter(mm)	400	500	500	800
Working Speed(m/min)	6-10	6-10	6-10	6-10
Capacity(m <sup>3</sup> /h)	500-700	1000-1200	1300-1500	1500-1800

#### Advantages of crawler type compost turner:

1. It is easier to operate, saves space, labor and diesel, shortens working time and advances fermentation cycle.
2. The front hydraulic push plate is added, which does not require manual time to complete the pile.
3. Cylinder hydraulic lifting, cab can be equipped with air conditioner.
4. The control cabinet is used to control the machine. Manual and automatic control are available.
5. It covers a small area of land to meet the harmless treatment of organic waste.
6. Advanced technology, compact structure, low energy consumption and stable product quality.

#### FAQ:

##### 1. Are you trading company or manufacturer ?

We are a manufacturer with a history over 40 years and have realized one-stop service for design, manufacture, installation, debugging and technical training.

##### 2. How long is the delivery time?

For standard machines or Components, it would be 5-10 days; For non-standard machines and customized machines according to clients specific requirements, it would be appointment time.

##### 3. Do you arrange shipment for the machines?

Yes, we will do that. For FOB or CIF price, we will arrange shipment for you. For EXW price, we will assist you in arranging shipment.

##### 4. How about your product after-sales service?

Normally we provide video and written technical support. If necessary, our engineers can also provide on-site service. Our product accessories can be selected according to the actual needs of the customer to choose the most appropriate way to deliver.

##### 5. What kinds of certificate you have?

ISO 9001: 2015 SGS and we can make other certificates according to customers' detailed requirements.

##### 6. How to guarantee the quality and operation before loading?

We have our own quality control department and have advance quality control system while from raw materials to finished products. All the machines and production lines shall be 100% checked and tested before delivery.
