

Double Shaft Paddle Mixer Sawdust Fertilizer Mixing Equipment 18.5KW

Our Product Introduction

for more products please visit us on organicfertilizerequipment.com

Basic Information

- Place of Origin: China
- Brand Name: TONGDA
- Certification: CE, ISO
- Model Number: TDSJ-8030
- Minimum Order Quantity: 1
- Packaging Details: According to customer requirements
- Delivery Time: 5-10 days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100 units per month

Product Specification

- Product Name: Double Shaft Mixer Machine
- Material: Carbon Steel And Stainless Steel
- Condition: New
- Power: 18.5 KW
- Function: Mixing Raw Material
- Additional Capabilities: Mix
- Highlight: **18.5KW Double Shaft Paddle Mixer, Sawdust Fertilizer Mixing Equipment, Fertilizer Mixing Equipment 18.5KW**

Product Description

Powder Sawdust Mixer Double Shaft Paddle Two Shaft Horizontal Mixers Machine

Double shaft mixer is used for coal, coal slurry, fly ash, sludge, mineral powder, clay, oxidation iron, coal slurry, sludge, clay, fly ash etc. With the good effect on mixing & blending. Double shaft mixer is used for mixing materials continuously and uniformly. During mixing the materials can be uniformly mixed with binder, after mixer; the blended materials can be continuously sent to the conveyor, transmit to the next equipment.

Model	Power (kw)	Outer Diameter of Mixing Shaft (mm)	Reducer type	Mixing Speed (r/min)	Dimensions (mm)
TDSJ-8030	11	420	ZQ350-31.5	35	3700*800*750
TDSJ-1050	22	650	ZQ500-31.5	35	6200*1300*1200

Working Principle:

1. Double shaft mixer has high mixing speed and good uniformity.
2. It can be added into sticky material which contains 30% liquid. When working, the two paddle rotors which do counter rotating are mixing in the middle.
3. As to the paddle has many special angles, no matter the materials' shape, size, and density, the materials is mixed quickly and effectively.

Our main products:

1. 10-200,000 tons of organic fertilizer, inorganic fertilizer, garbage, sludge and other organic waste harmless treatment fertilizer production equipment.
2. 10-300,000 tons of urea, amino acid granulation and compound fertilizer Production line .
3. complete set of Organic fertilizer equipment, small organic fertilizer production line.
4. Laboratory equipment of universities, agricultural and forestry research institutes and other scientific research institutions.

FAQ:

Q: Can I use this production line to produce multi granularity particles?

Yes, our production line is multifunctional. We can customize ring moulds of different sizes. In this way, you can easily adjust the size of your ball.

Q: I know little about the fertilizer production line. How to choose the most suitable machine?

Just tell us your raw materials, capacity (tons / hour) and the size of the final particle product, and we will choose the machine for you according to your specific situation.

Q: Our workers don't know how to operate the production line. What should I do?

Our engineers will guide on-site workers on how to install machines and build workshops. Then, our engineers will test the production line on site and train your workers how to operate it.

Q: Are you a trading company or a manufacturer?

We have a large factory in Jiaozuo, China, covering an area of 10000 square meters. Welcome to visit.

Q: What's the Production Period of the Fertilizer Machine?

For single fertilizer machine, our production time is 7 days; and for whole fertilizer production line, our production time is no more than 30 days.

Q: What's the Quality Guarantee and Certifications?

all of our machine have passed ISO and CE certification, we can guarantee the highest quality and our warranty time is 5 years after shipment date.
