

## Straw Wheel Compost Turner Fermentation Compost Equipment 30m Width

Our Product Introduction

for more products please visit us on [organicfertilizerequipment.com](http://organicfertilizerequipment.com)

### Basic Information

- Place of Origin: China
- Brand Name: TONGDA
- Certification: CE, ISO
- Model Number: TDLFPD-20000
- Minimum Order Quantity: 1
- Packaging Details: According to customer requirements
- Delivery Time: 5-10 days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100 units per month

### Product Specification

- Product Name: Wheel Type Compost Turner
- Voltage: 220V/110V/380V/415V/as Your Request
- Turning Depth: 1.5-3m
- Turning Width: 30m
- Application: Fermentation Of Organic Waste, Aerobic Fermentation
- Production Capacity: 97%
- Highlight: **Straw Fermentation Compost Equipment, Fermentation Wheel Compost Turner, Straw Wheel Compost Turner**

## Product Description

### Wheel Type Compost Turning Machine Straw Fermentation Compost Making Machine

Wheel Type Composting Turner Machine is an important fermentation equipment in large scale organic fertilizer making plant. The wheeled compost turner can rotate forward, backward freely, all of which are operated by one person. Wheeled composting wheels work above tape compost stacked in advance; the rotary knives installed on strong rotating drums under the tractor rack are tools for mixing, loosening or moving stacking stacks.

Widely used in fermentation and dewatering operations of organic fertilizer plants, compound fertilizer plants, sludge waste plants, garden fields and Agaricus bisporus plantations.

**Applicable Materials:** can be used for livestock and poultry manure, sludge garbage, sugar mill filter mud.

Model	Main Motor Power(kw)	Moving Motor Power(kw)	Trolley Motor Power(kw)	Turning Width(mm)	Turning Depth(mm)
TDLPGD-20000	45	5.5*2	2.2*4	20	1.5-2
TDLPGD-20000	45	5.5*2	2.2*4	22	1.5-2

**The advantage are s follow:** Wheel type compost turner is suitable for the fermentation with large span and high depth of livestock manure, sludge and garbage, filter mud from sugar mill, waste slag cake and straw sawdust and other organic waste. The machine is also widely used in organic fertilizer plant, compound fertilizer plant, sludge and garbage plant, horticultural farm and bisporus plant for fermentation and the removal of water.

1. The high turning depth: the depth can be 1.5-3m;
2. The large turning span: the largest width can be 30m;
3. The low energy consumption: 70% lower than other traditional turning equipment.
4. Turning with no dead angle.
5. High degree of automation.

#### FAQ:

**Q1: Are you trading company or manufacturer?**

A: We are factory.

**Q2: How long is your delivery time?**

A: Generally it is 7-10 days if the goods are in stock. Or it is 15-30 days if the goods are not in stock, it is according to quantity.

**Q3: What is your payment method?**

A: 30% of total prices should be paid by T/T as down payment; 70% balance payment should be paid by T/T before delivery.

**Q4: How long is the warranty of your equipments? Does your company supply the spare parts?**

A: The warranty period of fertilizer equipments is one year. And we will supply the spare parts for you at lowest cost.

**Q5: If I need the complete fertilizer production line can you help us to build it?**

A: Yes, we can help you set up a fertilizer production line and give you related professional advices as long as you need. We had already build many fertilizer production line projects in China & Oversea.
