

## BB Fertilizer Rotary Drum Mixer Multifunctional Blending Fertilizer Production Line

Our Product Introduction

for more products please visit us on [organicfertilizerequipment.com](http://organicfertilizerequipment.com)

### Basic Information

- Place of Origin: China
- Brand Name: TONGDA
- Certification: ISO,CE
- Model Number: 350
- Minimum Order Quantity: 1
- Packaging Details: According to customer requirements
- Delivery Time: 7-15 days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100 units per month

### Product Specification

- Name: Bulk Blending Fertilizer Production Line
- Power: 11.5kw
- Machine Type: Industrial Blender Mixer Machine
- Voltage: 380v Or Custom-made
- Rotate Speed: 13r/min
- Barrel Volume (L): 2000
- Highlight: **BB Fertilizer Rotary Drum Mixer,  
Multifunctional Fertilizer Rotary Drum Mixer,  
13r/min Fertilizer Rotary Drum Mixer**

## Product Description

### BB Fertilizer Rotary Drum Mixer Multifunctional Bulk Blending Fertilizer Production Line

BB fertilizer mixer, also known as bulk blending fertilizer mixer, is a machine used for mixing different fertilizers, micronutrients, and other additives in a specified ratio to produce a customized fertilizer blend suitable for specific crops and soil types.

#### Product advantages:

1. The fertilizer mixer equipment covers a small area (square meters).
2. Low power consumption (the power of the whole set of equipment is less than kilowatt-hour).
3. The main machine of fertilizer mixer is made of industrial grade stainless steel.

#### BB fertilizer mixer parameter table:

Model	Output Capacity(L)	Feed Capacity(L)	Rotating Speed Of Mixer(r/min)	Productivity (m³/h)	Supporting Power(kw)	Mixing And Lifting Motor (kw)
350	350	560	14	10~14	5.5	0.55

The mixer is designed to handle different types of solid or granular fertilizers with varying physical and chemical properties. The fertilizers are loaded into the mixer through different ports, and the machine uses a conveyor belt and a set of rotating paddles or blades to mix the components thoroughly. The final product is discharged through an outlet port and bagged or transported to the desired storage location.

**BB fertilizer mixers** are widely used in agriculture, horticulture, and gardening applications to produce custom blends of fertilizers with different nutrient ratios suitable for specific crops and soil types. The machine's benefits include increased efficiency, reduced labor, and production costs, and better control over the quality and consistency of the final product.

#### FAQ:

##### 1. Are you trading company or manufacturer ?

We are a manufacturer with a history over 40 years and have realized one-stop service for design, manufacture, installation, debugging and technical training.

##### 2. How long is the delivery time?

For standard machines or Components, it would be 5-10 days; For non-standard machines and customized machines according to clients specific requirements, it would be appointment time.

##### 3. Do you arrange shipment for the machines?

Yes, we will do that. For FOB or CIF price, we will arrange shipment for you. For EXW price, we will assist you in arranging shipment.

##### 4. How about your product after-sales service?

Normally we provide video and written technical support. If necessary, our engineers can also provide on-site service. Our product accessories can be selected according to the actual needs of the customer to choose the most appropriate way to deliver.

##### 5. What kinds of certificate you have?

ISO 9001: 2015 SGS and we can make other certificates according to customers' detailed requirements.

##### 6. How to guarantee the quality and operation before loading?

We have our own quality control department and have advance quality control system while from raw materials to finished products. All the machines and production lines shall be 100% checked and tested before delivery.
