

Compound Organic Fertilizer Granulation Machine 220V Bentonite Cat Litter Granules

Basic Information

Place of Origin: China
Brand Name: TONGDA
Certification: ISO,CE
Model Number: TDYZ-1800

Minimum Order Quantity:

• Packaging Details: According to customer requirements

• Delivery Time: 5-15 days

Payment Terms:
 L/C, D/A, D/P, T/T, Western Union,

MoneyGram

Supply Ability: 100 units per month

Product Specification

Product Name: Fertilizer Disc Granulator Machine

Capacity: 0.8-1.2 Ton/h
Finished Products: 3-6mm
Rotary Speed: 32 R/min
Voltage: 220V

Application: Fertilizer Granule Making Machine
 Highlight: Compound Organic Fertilizer Granulation

Machine

, Organic Fertilizer Granulation Machine 220V, 1.2 ton/h Organic Fertilizer Granulation Machine

Product Description

Bentonite Cat Litter Granules Making Compound Organic Fertilizer Granulating Granulation Machine

Disc granulator is widely used for producing round granules of organic fertilizer and compound fertilizer. Adopting arc disc angle structure, the granulation rate can be 85% above with uniform granules. The design of granulation plate is convenient for intermittent continuous production, which greatly reduces the labor intensity and improves labor efficiency.

Model	TDYP500	TDYP800	TDYP1000	TDYP200
Diameter of Disc	500mm	800mm	1000mm	1200mm
Edge Height	200mm	200mm	250mm	250mm
Rotary Speed	32(r/min)	21(r/min)	21(r/min)	21(r/min)
Motor Power	0.55kw	1.5kw	1.5kw	1.5kw
Capacity	0.02-0.05(t/h)	0.1-0.2(t/h)	0.2-0.3(t/h)	0.3-0.5(t/h)
Dimensions	650*600*800mm	900*1000*1000mm	1200*950*1300mm	1200*1470*1700mm

Automatic Organic Fertilizer Making Machine is a complete line of machinery used for compost and process organic fertilizer with in vessel method. Poultry manure, cow dung or other animal manure are probably the raw material. The complete production line consists of composting system, grinding and sifting system, batching and mixing system, pelleting system, drying system, cooling and sifting system, bagging system, auxiliary system and plant controls & computer. The plant has the advantage of advanced and reliable technology, compact structure, simple operation, convenient maintenance and high automation. With the complete equipment, formulas can be easily adjusted according to the market demand to meet the different requirements of customers.

FAQ:

1. Are you trading company or manufacturer?

We are a manufacturer with a history over 40 years and have realized one-stop service for design, manufacture, installation, debugging and technical training.

2. How long is the delivery time?

For standard machines or Components, it would be 5-10 days; For non-standard machines and customized machines according to clients specific requirements, it would be appointment time.

3. Do you arrange shipment for the machines?

Yes, we will do that. For FOB or CIF price, we will arrange shipment for you. For EXW price, we will assist you in arranging shipment.

4. How about your product after-sales service?

Normally we provide video and written technical support. If necessary, our engineers can also provide on-site service. Our product accessories can be selected according to the actual needs of the customer to choose the most appropriate way to deliver.

5. What kinds of certificate you have?

ISO 9001: 2015 SGS and we can make other certificates according to customers' detailed requirements.

6. How to guarantee the quality and operation before loading?

We have our own quality control department and have advance quality control stystem while from raw materials to finished products. All the machines and production lines shall be 100% checked and tested before delivery.
