

Stir Teeth Fertilizer Granulator Machine Organic Pellets Bio Organic Equipment

Our Product Introduction

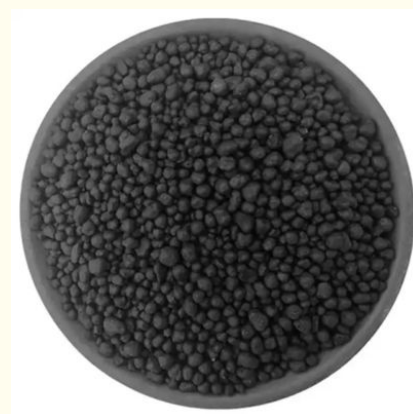

Basic Information

- Place of Origin: China
- Brand Name: TONGDA
- Certification: CE, ISO
- Model Number: TDJZ-600
- Minimum Order Quantity: 1
- Packaging Details: According to customer requirements
- Delivery Time: 5-10 days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100 units per month

Product Specification

- Product Name: Stirring Teeth Organic Fertilizer Granulator
- Usage: Making Organic Fertilizer Pellets
- Voltage: 380V/220v/415v/Customized
- Application Scope: Organic Fertilizer Industry
- Ball Size: 2-6mm, Adjustable
- Power: 42.6KW
- Highlight: Stir Teeth Fertilizer Granulator Machine, 415v Fertilizer Granulator Machine, 6mm Fertilizer Granulator Machine

Product Description

Making Organic Fertilizer Pellets Bio-Organic Fertilizer Stir Teeth Fertilizer Granulator Machine

This series of Bio-organic fertilizer stir teeth fertilizer granulator machine is a new patented product developed by our company and the Agricultural Machinery Research Institute.

Features of Bio-organic fertilizer stir teeth fertilizer granulator machine

The first section of the housing is split type assembly without lifting device or manual dismantling. It is easy to clean the inner wall of the shell. Bio-organic fertilizer stir teeth fertilizer granulator machine

Operation principle: first, the material enters the first granulation section from the uniform feeding part (through the speed regulating feed volume) and prepare for granulation through high speed and adjustable mixing knife, then push to the second granulation section. Granulation material in the two granulation section, through the internal mixing teeth two times granulation and outer cylinder molding, achieve the purpose of granulation, so that the particles have better quality assurance. We designed suction ports and dust outlets in silos, and users can connect vacuum cleaners to meet environmental discharge requirements. We also designed the observation door and the nozzle of the spray tube.

Model	TDJZ-600	TDJZ-800	TDJZ-1000	TDJZ-1200	TDJZ-1500
Installation Angle	2°-2.5°	2°-2.5°	2°-2.5°	2°-2.5°	2°-2.5°
Capacity(t/h)	1-1.5	1.5-2.5	2-4	4-6	6-8
Total Power(kw)	37	55	75	90	110
Moisture Of Feeding Material	35%-45%	35%-45%	35%-45%	35%-45%	35%-45%
Size Of Feeding Material (mesh)	50	50	50	50	50
Dimensions	4100*1600*1150	4250*1850*1300	4700*2350*1600	4900*2550*1800	5500*2800*2000

Feature:

1. Special for organic fertilizer granules making, good effect.
2. The granules shape is round spherical.
3. The particle size is between 0.3-8.0 mm adjustable.
4. Moisture of the raw material can be in 20%-40%.

FAQ:

1.Are you manufacturer or trading company?

We are professional manufacturer of fertilizer processing machines and related machines,such as fertilizer granulator,fertilizer crusher, fertilizer mixer, fertilizer packing machine,fertilizer compost turning machine and fertilizer conveyor belt etc.

2.How about the delivery time?

It can be shipped immediately for the machine in stock,and 5-7days for the machine out of stock.

3.How long is the guarantee period?

Warranty for 12 months without artificial and deliberate damage.

4.How should you do if I meet some troubles while using?

The English manual book and video will be provided for showing how to resolve the problems, if necessary, we will dispatch our engineer to your factory.

5. Do you provide installation service after ordering your machines?

As for the single machine, we provide the users instruction and operation video.

As for the production line,we provide the professional construction drawing,and arrange the engineer.
