

Conveying Equipment Pulverizing And Feeding Fertilizer Forklift Silo

Our Product Introduction

for more products please visit us on organicfertilizerequipment.com

Basic Information

- Place of Origin: China
- Brand Name: TONGDA
- Certification: CE, ISO
- Model Number: TDHL-1220
- Minimum Order Quantity: 1
- Packaging Details: According to customer requirements
- Delivery Time: 5-10 days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram

Product Specification

- Product Name: Fork Lift Silo
- Material: Carbon Steel Or Stainless Steel
- Core Components: Motor
- Power: 4+(4) Kw
- Type: Conveying Equipment
- Color: Customer Request
- Highlight: **Conveying Pulverizing and Feeding Fertilizer , Pulverizing and Feeding Fertilizer Conveying equipment , Forklift Silo Conveying equipment**

Product Description

Various Materials Conveying Pulverizing and Feeding Fertilizer Fork-Lift Silo

Various materials conveying loader fertilizer fork lift silo:

This machine is a new combination of capacity and even feeding. The machine has material storage bin, anti caking crushing device, discharging adjustment system and conveying device. The overall combination enables large volume storage of materials to be transported at a uniform speed and can be continuously worked continuously, especially for engineering applications such as chemical fertilizers and aquaculture.

Model	Capacity(t/h)	Dimensions(mm)
TDHL-1220	2-5	2300*1400*2400

Feature of Various materials conveying loader fertilizer fork lift silo:

The machine is mainly used for the mechanized feeding and transport of raw materials. The raw material can be continuously fed by a shovel to reduce the artificial fatigue. The middle of the silo has a pulverizing and feeding device. The material in the silo is too much to start the pulverizing device. The main shaft runs to com-minuted and accumulated materials, so that the material is loose from the line, and falls on the conveyor belt, and the belt is on the belt.

The shovel bin is suitable for the uniform conveying characteristics of various solid materials and certain moisture materials.

FAQ:

If you have any question when you contact or before place an order to us, please first check the below information for reference. You can find information that can help you decide whether your product or related accessory needs service, and see what service options are available to you.

1. Which countries are your products sold to?

The products of Henan Tongda Heavy Industry have been exported to more than ten countries and regions such as the United States, Germany, Japan, Russia, Australia and countries in the Middle East and Africa.

2. How to pack the product?

For the sake of safety, we use wooden cases or containers to avoid damage to the products.

3. How long is the delivery time of the product?

Usually, our delivery time is 25 to 30 days.

4. What is after-sales service?

- Free assignment of professional after-sales service personnel, arrived at the site to guide the customer installation and commissioning.
- Train operators on site.

5. With what payment?

Our payment methods include L/C, T/T, Western Union, MoneyGram.
