

## Organic Fertilizer Production Line Chicken Manure Cow Dung Pellet Machine

Our Product Introduction

for more products please visit us on [organicfertilizerequipment.com](http://organicfertilizerequipment.com)

### Basic Information

- Place of Origin: China
- Brand Name: TONGDA
- Certification: CE, ISO
- Model Number: TDFZ
- Minimum Order Quantity: 1
- Packaging Details: According to customer requirements
- Delivery Time: 10-15 days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 10 units per month

### Product Specification

- Application: Fertilizer Pellet Making Machine
- Production Capacity: 1-20 Tons/h
- Acceptable Raw Materials: Chicken Manure, Cow Dung, Sheep Dung
- Granulation Rate: 95%
- Machine Type: Granulator
- Highlight: **Chicken Manure Organic Fertilizer Production Line, Cow Dung Fertilizer Pellet Making Machine, Organic Fertilizer Pellet Machine**

## Product Description

### Organic Fertilizer Production Line Chicken Manure Cow Dung Fertilizer Pellet Making Machine

The Whole pFertilizer Pellet Making Machine is include fermentation machine, crusher, mixer, granulator machine, dryer, cooler, screening machine, packing machine etc. The Granulator machine is the most important machine in the line. It can be changed by the different kind of material and different kind of machine.

#### Characteristics of Fertilizer Pellet Making Machine:

1. Production of particles is ball.
2. organic matter after fermentation don't need drying. The raw material could contain moisture from 20% to 40%.
3. Organic matter content can be as high as 100%, achieving pure organic matter granulation.
4. It can use organic matter particles under the certain role, the characteristics of the Mosaic grow up each other, don't need to add binder granulation.
5. Solid particles can be sieved directly after granulation, which can reduce the energy consumption of drying.

Model	Capacity(t/h)	Feature
Organic drum granulation production line	0.5-20t/h, 1000-200000t/year	Raw material is power, add to 40% humidity, then make granules, dry granules.
Organic roller granulation production line	0.5-20t/h, 1000-200000t/year	Raw material is power, add to 40% humidity, then make granules, dry granules.
Organic granulation production line	0.5-20t/h, 1000-200000t/year	Raw material is power, add to 40% humidity, then make granules, dry granules.
Disc granulation production line	0.5-20t/h, 1000-200000t/year	Raw material is power, add to 40% humidity, then make granules, dry granules.

#### The process of organic fertilizer production line is as follows:

1. Raw material fermentation
2. Automatic belt scale batching system
3. Crushing, mixing
4. Disc granulation, drum granulation, extrusion granulation
5. Dryer, Drying Organic Fertilizer Granules
6. Cooling Machine, Cooling Organic Fertilizer Particles
7. Screening Machine. Screening Out Qualified Organic Fertilizer Particles—Intelligent Small Fertilizer Equipment|Intelligent Small Organic Fertilizer Production Line
8. Coating Membrane machine, coated film granules, making the granules smoother
9. Packing scale, automatic filling organic fertilizer granules
10. Seal machine

#### FAQ:

##### 1..How should to do if I meet some trouble while using?

A:The English manual book and video will be provide for showing how to resolve the problems, if necessary, we will dispatch our engineer to your factory.

##### 2. Do you provide the installation service after ordering your machines?

A:As for the single machine, we provide the users instruction and operation video.As for the production line,we provide the professional construction drawing,and arrange the engineer guide the user install the machines.Help the user train the skilled workers.

##### 3.Can we visit your factory to see some fertilizer plant with your machine?

A:We really give every customer a warm welcome to visit our factory,and we can take the customer to visit fertilizer plants with our equipment. Animal manures fertilizer pellet production line /organic fertilizer granulator production line for sale , inquiry now:)
