

## Animal Waste Horizontal Mixer Machine SUS316 Bio Organic Fertilizer Mixer Machine 3phase

Our Product Introduction

for more products please visit us on [organicfertilizerequipment.com](http://organicfertilizerequipment.com)

### Basic Information

- Place of Origin: China
- Brand Name: TONGDA
- Certification: CE,ISO
- Model Number: TDWJ-7015
- Minimum Order Quantity: 1
- Packaging Details: According to customer requirements
- Delivery Time: 5-7 days delivery
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100 units per month

### Product Specification

- Product Name: Organic Fertilizer Mixer Machine
- Application: Powder
- Advantage: High Efficiency
- Range Of Spindle Speed(r.p.m): 40 - 70 R.p.m
- Material: SUS304, SUS304L, SUS316
- Voltage: 3phase 380V 50Hz Or Customerized
- Highlight: **SUS316 Animal Waste Horizontal Mixer Machine , Bio Organic Fertilizer Mixer Machine , Organic Fertilizer Mixer Machine 3phase**

## Product Description

### Horizontal Mixer Machine Animal Waste Bio Organic Fertilizer Mixer Machine

The organic fertilizer mixer machine is mainly suitable for humidification and mixing of raw materials in the fertilizer industry, allowing for full mixing of materials and also having conveying functions.

When the quantitative raw powder is obtained, it flows into the mixing tank through the feeding port, and is atomized by several water with relative pressure and sprayed onto the raw powder. After being stirred evenly by a qualitative length shaft, it forms a ball core with consistent water content.

Organic fertilizer mixer machine is generally used for the mixing of solid-solid and solid-paste, such as pesticides, food, chemicals, biology, ceramics, livestock breeding, refractory materials, compound fertilizers, and also for the mixing of viscous materials.

Model	TDWJ-7015	TDWJ-9015	TDWJ-1630
Dimensions(mm)	2350*1200*1000	2300*1200*1000	3950*1720*2100
Motor Power(kw)	7.5	11	22
Speed Reducer Model	ZQ350-23.34	ZQ350-23.34	ZQ500-48.57
Stirring Speed(r/min)	46	39	21
Main Plate Thickness(mm)	4	4	10
Capacity(t/h)	2-3	3-5	10-15

#### Working principle:

The organic fertilizer mixer machine consists of a horizontal drum or barrel that is rotated around its axis. The drum is typically made of heavy-duty steel and is lined with a wear-resistant material to prevent damage from the abrasive nature of the fertilizer materials. The drum is supported by a series of rollers and is driven by a motor through a gearbox. The speed of rotation can be adjusted to control the mixing process.

#### FAQ:

##### 1. Are you trading company or manufacturer ?

We are a manufacturer with a history over 40 years and have realized one-stop service for design, manufacture, installation, debugging and technical training.

##### 2. How long is the delivery time?

For standard machines or Components, it would be 5-10 days; For non-standard machines and customized machines according to clients specific requirements, it would be appointment time.

##### 3. Do you arrange shipment for the machines?

Yes, we will do that. For FOB or CIF price, we will arrange shipment for you. For EXW price, we will assist you in arranging shipment.

##### 4. How about your product after-sales service?

Normally we provide video and written technical support. If necessary, our engineers can also provide on-site service. Our product accessories can be selected according to the actual needs of the customer to choose the most appropriate way to deliver.

##### 5. What kinds of certificate you have?

ISO 9001: 2015 SGS and we can make other certificates according to customers' detailed requirements.

##### 6. How to guarantee the quality and operation before loading?

We have our own quality control department and have advance quality control system while from raw materials to finished products. All the machines and production lines shall be 100% checked and tested before delivery.
