

Automatic Horizontal Mixer Machine / Cow Dung Fertilizer Mixer Machine

Our Product Introduction

for more products please visit us on organicfertilizerequipment.com

Basic Information

- Place of Origin: China
- Brand Name: TONGDA
- Certification: CE, ISO
- Model Number: TDWJ-7015
- Minimum Order Quantity: 1
- Packaging Details: According to customer requirements
- Delivery Time: 5-7 days delivery
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100 units per month

Product Specification

- Product Name: Fertilizer Mixer Machine
- Max. Loading Volume (L): 1000 L
- Barrel Volume (L): 2.3 L
- Usage: Fertilizer And Feed Processing Plants.
- Material: SUS304, SUS304L, SUS316
- Voltage: 3phase 380V 50Hz Or Customized
- Highlight: **Cow Dung Fertilizer Mixer Machine, Automatic Horizontal Mixer Machine, 1000 L Fertilizer Mixer Machine**

Product Description

Automatic Horizontal Mixer Machine Cow Dung Fertilizer Mixer Machine

The Horizontal Fertilizer Mixer Machine has a central shaft with blades angled in different ways that look like ribbons of metal wrapped around the shaft, and is able to move in different directions at the same time, ensuring that all ingredients are blended in. Our Horizontal Fertilizer Mixer Machine can go with other auxiliary equipment such as belt conveyor or inclined belt conveyor for the whole fertilizer production line.

Application:

The Horizontal Fertilizer Mixer Machine is widely used in the solid-solid (powder material) and solid-liquid (powder material & fluidity material) mixing in the field of fertilizer industry, chemical industry, pharmacy, foodstuff industry, etc.

Model	TDWJ-7015	TDWJ-9015	TDWJ-1630
Dimensions(mm)	2350*1200*1000	2300*1200*1000	3950*1720*2100
Motor Power(kw)	7.5	11	22
Speed Reducer Model	ZQ350-23.34	ZQ350-23.34	ZQ500-48.57
Stirring Speed(r/min)	46	39	21
Main Plate Thickness(mm)	4	4	10
Capacity(t/h)	2-3	3-5	10-15

What is Horizontal Fertilizer Mixer used for?

Mixing is one of the important operations in whole fertilizer production line. And the is Horizontal Fertilizer Mixer Machine considered to be the basic and efficient equipment for mixing of dry granules, powders and other additives. The horizontal fertilizer mixer is mainly used to mix the material well with one or more auxiliary materials or other additives in the powder fertilizer production process or the pellet fertilizer production process.

FAQ:

1. Are you trading company or manufacturer ?

We are a manufacturer with a history over 40 years and have realized one-stop service for design, manufacture, installation, debugging and technical training.

2. How long is the delivery time?

For standard machines or Components, it would be 5-10 days; For non-standard machines and customized machines according to clients specific requirements, it would be appointment time.

3. Do you arrange shipment for the machines?

Yes, we will do that. For FOB or CIF price, we will arrange shipment for you. For EXW price, we will assist you in arranging shipment.

4. How about your product after-sales service?

Normally we provide video and written technical support. If necessary, our engineers can also provide on-site service. Our product accessories can be selected according to the actual needs of the customer to choose the most appropriate way to deliver.

5. What kinds of certificate you have?

ISO 9001: 2015 SGS and we can make other certificates according to customers' detailed requirements.

6. How to guarantee the quality and operation before loading?

We have our own quality control department and have advance quality control system while from raw materials to finished products. All the machines and production lines shall be 100% checked and tested before delivery.
