

# BB Fertilizer Mixer Equipment Dry And Wet Materials Blender Machine

# **Basic Information**

Place of Origin: China
Brand Name: TONGDA
Certification: ISO,CE
Model Number: 350
Minimum Order Quantity: 1

Packaging Details: According to customer requirements

• Delivery Time: 5-15 days

• Payment Terms: L/C, D/A, D/P, T/T, Western Union,

MoneyGram

Supply Ability: 100 units per month

# **Product Specification**

Name: BB Fertilizer Mixer Machine
 Application: Organic Or Inorganic Fertilizer

Power: 10KW
Max. Loading Capacity: 5-10 Ton/h
Rotate Speed: 13r/min
Barrel Volume (L): 2000

• Highlight: BB Fertilizer Mixer Equipment,

Dry And Wet Fertilizer Mixer Equipment,

**BB Fertilizer Mixer Machine** 

## **Product Description**

#### BB Fertilizer Mixer Equipment Various Dry and Wet Materials Blender Machine

BB fertilizer mixer is mainly used in organic fertilizer, compound fertilizer or under the dust collector of thermal power plant. It can also be used in chemical metallurgy, mining, building materials and other industries.

### Purpose and advantages of a bb fertilizer mixer machine:

It is mainly used in organic fertilizer, compound fertilizer or under the dust collector of thermal power plant. It can also be used in chemical metallurgy, mining, building materials and other industries.

- 1. the mixing efficiency is high and the area is small. The spiral blade adopts high wear special alloy.
- 2. single shaft mixer adopts reducer transmission, which is stable and has low noise.
- 3. It has reasonable structure. Its feeding is from the top, and the discharging is from the bottom.
- 4. The joint surfaces are tightly sealed and run smoothly.

#### BB fertilizer mixer parameter table:

Model	Output Capacity(L)	Feed Capacity(L)	Rotating Speed Of Mixer(r/min)	Productivity (m³/h)	Supporting Power(kw)	Mixing And Lifting Motor (kw)
350	350	560	14	10~14	5.5	0.55

#### **Characteristics of Performance:**

- 1. The mixing efficiency is high and the area is small. The spiral blade adopts high wear special alloy.
- 2. Adopts reducer transmission, which is stable and has low noise.
- 3.It has reasonable structure. Its feeding is from the top, and the discharging is from the bottom.
- 4. The joint surfaces are tightly sealed and run smoothly

## FAQ:

## 1. Are you trading company or manufacturer ?

We are a manufacturer with a history over 40 years and have realized one-stop service for design, manufacture, installation, debugging and technical training.

## 2. How long is the delivery time?

For standard machines or Components, it would be 5-10 days; For non-standard machines and customized machines according to clients specific requirements, it would be appointment time.

### 3. Do you arrange shipment for the machines?

Yes, we will do that. For FOB or CIF price, we will arrange shipment for you. For EXW price, we will assist you in arranging shipment.

# 4. How about your product after-sales service?

Normally we provide video and written technical support. If necessary, our engineers can also provide on-site service. Our product accessories can be selected according to the actual needs of the customer to choose the most appropriate way to deliver.

## 5. What kinds of certificate you have?

ISO 9001: 2015 SGS and we can make other certificates according to customers' detailed requirements.

# 6. How to guarantee the quality and operation before loading?

We have our own quality control department and have advance quality control stystem while from raw materials to finished products. All the machines and production lines shall be 100% checked and tested before delivery.
