

High Efficient Wood Crusher Sawdust Machine Waste Coconut Husk Stalk Straw Chipper

Our Product Introduction

for more products please visit us on organicfertilizerequipment.com

Basic Information

- Place of Origin: China
- Brand Name: TONGDA
- Certification: CE, ISO
- Model Number: TDJGF-400
- Minimum Order Quantity: 1
- Packaging Details: According to customer requirements
- Delivery Time: 5-10 days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100 units per month

Product Specification

- Product Name: Straw Crusher Machine
- Advantage: High Efficient
- Usage: Chip.shaving.sawdust
- Color: Clients' Requirement
- Feature: High Efficiency Low Cost
- Voltage: 380/400/415/440V
- Highlight: **High Efficient Wood Crusher Sawdust Machine, Waste Wood Crusher Sawdust Machine**

Product Description

Hot Sell Waste Coconut Husk Stalk Straw Chipper Wood Crusher Sawdust Machine

The multifunctional straw crusher is a new product developed by our company, suitable for crushing materials such as straw, sawdust, Chinese herbal medicine, shiitake mushrooms, Ganoderma lucidum, feed, chemical materials, etc. The machine has the advantages of high crude crushing yield, reasonable structure, energy-saving, and small footprint. It is an ideal equipment for crushing materials in industries such as straw, Chinese herbal medicine, feed, and chemical industry.

Working principle of straw crusher:

There are two series of micro crushers and micro crushers, consisting of a main engine, auxiliary engines, and electronic control, with a compact design. Reasonable structure, with wind selection and no screen or mesh. The machine is equipped with a grading structure, which can complete crushing and grading in one go. Negative pressure conveying allows the heat generated in the chamber during the crushing operation to be continuously discharged, making it also suitable for crushing thermosensitive materials. This machine has a wide range of applications, and the production process is continuous. The discharge particle size is adjustable, which can handle the crushing and grading of various materials such as chemicals, food, drugs, cosmetics, dyes, resins, shells, etc.

Model	Power(kw)	Capacity(m³/h)	Dimensions(mm)
TDJGF-400	38	4	3850*950*1050
TDJGF-600	22	3	3850*950*1050
TDJGF-800	37	3.5	3850*950*1050

Wide adaptability: This machine is suitable for continuous production processes with adjustable discharge particle size;

Reasonable design: compact design, reasonable structure, with air selection and no screen. The machine is equipped with a grading structure, which can complete crushing and grading in one go;

Product advantages of straw crusher:

1. The size of sawdust can be adjusted in range 1-10mm by changing screen.
2. It is the necessary wood processing equipment for small and medium-sized enterprises and individual household.

FAQ:

1. Are you trading company or manufacturer ?

We are a manufacturer with a history over 40 years and have realized one-stop service for design, manufacture, installation, debugging and technical training.

2. How long is the delivery time?

For standard machines or Components, it would be 5-10 days; For non-standard machines and customized machines according to clients specific requirements, it would be appointment time.

3. Do you arrange shipment for the machines?

Yes, we will do that. For FOB or CIF price, we will arrange shipment for you. For EXW price, we will assist you in arranging shipment.

4. How about your product after-sales service?

Normally we provide video and written technical support. If necessary, our engineers can also provide on-site service. Our product accessories can be selected according to the actual needs of the customer to choose the most appropriate way to deliver.

5. What kinds of certificate you have?

ISO 9001: 2015 SGS and we can make other certificates according to customers' detailed requirements.

6. How to guarantee the quality and operation before loading?

We have our own quality control department and have advance quality control system while from raw materials to finished products. All the machines and production lines shall be 100% checked and tested before delivery.
