

High Quality Organic Fertilizer Production Line Chicken Manure Granule Fertilizer Making Machine

Our Product Introduction

for more products please visit us on organicfertilizerequipment.com

Basic Information

- Place of Origin: China
- Brand Name: TONGDA
- Certification: CE,ISO
- Model Number: TDFZ
- Minimum Order Quantity: 1
- Packaging Details: According to customer requirements
- Delivery Time: 10-15days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 10 units per month

Product Specification

- Application: Granule Fertilizer Making Machine
- Production Capacity: 1-20 Tons/h
- Applicable Materials: Chicken Dung, Pig Dung, Cow Dung, Sheep Dung, Etc
- Raw Material Size: 50-200mesh
- Granule Size: 3-6mm
- Advantage: Hard And Dry Enough,less Powder,free Flowing
- Highlight: **High Quality Fertilizer Production Line, Organic Fertilizer Production Line, Chicken Manure Fertilizer Production Line**

Product Description

High Quality Organic Fertilizer Production Line Chicken Manure Granule Fertilizer Making Machine

The complete set of equipment for the biological organic fertilizer production line includes: fermentation stacker, forklift silo, semi wet material crusher, horizontal mixer, organic fertilizer granulator, dryer, cooler, screening machine, and automatic packaging machine.

What are the raw materials for organic fertilizer?

1. Animal manure: chicken manure, pig manure, cow manure, earthworm manure.
2. Crop residues: corn stover, wheat straw, straw, leaves, weeds, peanut seedlings, soybean stalks, palm fiber, oil cake: peanut cake, soybean cake, cottonseed cake, rapeseed cake.
3. Industrial waste: wine dregs, vinegar dregs, cassava dregs, sugar dregs, furfural dregs, Kitchen waste .
4. Composting materials: kitchen waste, plant residues, lawn clippings, straw, wood chips and other organic waste, etc.
5. Seaweed and aquatic plants: rice seedlings, lotus seedlings, etc.
6. Food processing waste: fruit peels, fruit pomace, coffee grounds, etc.
7. Fish meal and fish bone meal.
8. Humus soil.
9. Municipal sludge.
10. Humic acid: potassium humate, xanthate.

If you have a better idea, or would like to do an experimental test as well, please contact us right away!

Model	Capacity(t/h)	Feature
Organic drum granulation production line	0.5-20t/h,1000-200000t/year	Raw material is power, add to 40% humidity,then make granules,dry granules.
Organic roller granulation production line	0.5-20t/h,1000-200000t/year	Raw material is power, add to 40% humidity,then make granules,dry granules.
Organic granulation production line	0.5-20t/h,1000-200000t/year	Raw material is power, add to 40% humidity,then make granules,dry granules.
Disc granulation production line	0.5-20t/h,1000-200000t/year	Raw material is power, add to 40% humidity,then make granules,dry granules.

Working principle:

The process of organic fertilizer production line is as follows:

1.Raw material fermentation — 2 Automatic belt scale batching system —3 Crushing, mixing — 4 Disc granulation, drum granulation, extrusion granulation —5 Dryer, Drying Organic Fertilizer Granules—6 Cooling Machine, Cooling Organic Fertilizer Particles—7 Screening Machine. Screening Out Qualified Organic Fertilizer Particles—Intelligent Small Fertilizer Equipment|Intelligent Small Organic Fertilizer Production Line L-8 Coating Membrane machine, coated film granules, making the granules smoother—9 Packing scale, automatic filling organic fertilizer granules —10 seal.

If you want a small organic fertilizer powder production line, or a large powder organic fertilizer production line, or a small granular production line, or a large granular production line based on your situation, or if you do not want a production line with multiple equipment configurations, etc., you can consult our company by phone. Our company will provide you with reasonable suggestions according to your situation, and help you plan the site, equipment layout, and installation and commissioning services after equipment production, so that you do not have any worries. We welcome you to come and negotiate orders.

FAQ:

1.Are you manufacturer or trade company?

A:We are a professional manufacturer for producing fertilizer processing equipment and related machine(fermentation machines,granulator, crusher, mixer, packing, feeding machines and conveyor belt) etc.

2.How should I do if I meet some trouble while using?

A:The English manual book and video will be provide for showing how to resolve the problems, if necessary, we will dispatch our engineer to

your factory.

3. Do you provide the installation service after ordering your machines?

A:As for the single machine, we provide the users instruction and operation video.

As for the production line,we provide the professional construction drawing,and arrange the engineer guide the user install the machines.Help the user train the skilled workers.

4.Can we visit your factory to see some fertilizer plant with your machine?

A:We really give every customer a warm welcome to visit our factory,and we can take the customer to visit fertilizer plants with our equipment.
