

## 5-10t/h Chicken Manure Waste Mushroom Round Organic Fertilizer Granules Production Line

Our Product Introduction

for more products please visit us on [organicfertilizerequipment.com](http://organicfertilizerequipment.com)

### Basic Information

- Place of Origin: China
- Brand Name: TONGDA
- Certification: CE, ISO
- Model Number: TDFZ
- Minimum Order Quantity: 1
- Packaging Details: According to customer requirements
- Delivery Time: 10-15days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 10 units per month

### Product Specification

- Product Name: Fertilizer Production Line
- Machinery Capacity: 5-10t/h
- Acceptable Raw Materials: Chicken Manure, Cow Dung, Sheep Dung
- Voltage: 380V/415V/440V
- Usage: Animal Manure
- Raw Material Size: 50-200mesh
- Highlight: Mushroom Round Fertilizer Production Line, Organic Granules Fertilizer Production Line, 5-10t/h Fertilizer Production Line

## Product Description

### 5-10t/h Chicken Manure Waste Mushroom Round Organic Fertilizer Granules Production Line

Organic waste to fertilizer production line uses the organic waste as the raw material, such as organic waste, straw, excrement from people, livestock and poultry, cake meal, agricultural and sideline products, then it is fermented, deodorized and thoroughly decomposed to be made fertilizer.

#### Animal manures fertilizer pellet production line /organic fertilizer granulator production line for sale:

##### Raw Materials of bio organic fertilizer granulation production line

**Agricultural waste :** Straw,dregs of beans,cotton dregs,rice bran,etc

**Livestock/human waste:** Mixture of poultry litter(PL) and livestock/animal/human waste,slaughterhouse waste,fish maket,urine and dung of cattle,pigs,sheep,chicken,ducks,geese,goat,etc

**Industrial waste:** Wine lees,vinegar residue,manioc waste,sugar scum,furfural residue,etc

**Home scrap:** Food waste,bones,the roots and leaves of vegetables,etc

**Mineral:** Humic acid,bentonite,dolomite,etc

**Others :** Sludge of the rive,the sewer,etc

Model	Capacity(t/h)	Feature
Organic drum granulation production line	0.5-20t/h,1000-200000t/year	Raw material is power, add to 40% humidity,then make granules,dry granules.
Organic roller granulation production line	0.5-20t/h,1000-200000t/year	Raw material is power, add to 40% humidity,then make granules,dry granules.
Organic granulation production line	0.5-20t/h,1000-200000t/year	Raw material is power, add to 40% humidity,then make granules,dry granules.
Disc granulation production line	0.5-20t/h,1000-200000t/year	Raw material is power, add to 40% humidity,then make granules,dry granules.

#### Working principle

The process of organic fertilizer production line is as follows:

1.Raw material fermentation — 2 Automatic belt scale batching system —3 Crushing, mixing — 4 Disc granulation, drum granulation, extrusion granulation —5 Dryer, Drying Organic Fertilizer Granules—6 Cooling Machine, Cooling Organic Fertilizer Particles—7 Screening Machine. Screening Out Qualified Organic Fertilizer Particles—Intelligent Small Fertilizer Equipment|Intelligent Small Organic Fertilizer Production Line L-8 Coating Membrane machine, coated film granules, making the granules smoother—9 Packing scale, automatic filling organic fertilizer granules —10 seal

The powdery organic fertilizer production line, like the granular organic fertilizer production line, uses animal manure to add crop auxiliary materials, which are processed into organic fertilizer through organic fertilizer equipment. Due to its simple process, less equipment required, and less investment, the cost of the powdery organic fertilizer production line can be recovered within a year. Many customers want to purchase a powdery organic fertilizer production line, and their main concern is the revenue of powdery organic fertilizer. The equipment required for the production line of powdered organic fertilizer includes an organic fertilizer flipper, a horizontal mixer, and a high humidity material crusher.

#### FAQ:

##### 1..How should to do if I meet some trouble while using?

A:The English manual book and video will be provide for showing how to resolve the problems, if necessary, we will dispatch our engineer to your factory.

##### 2. Do you provide the installation service afterordering your machines?

A:As for the single machine, we provide the users instruction and operation video.As for the production line,we provide the professional construction drawing,and arrange the engineer guide the user install the machines.Help the user train the skilled workers.

##### 3.Can we visit your factory to see some fertilizer plant with your machine?

A:We really give every customer a warm welcome to visit our factory,and we can take the customer to visit fertilizer plants with our equipment. Animal manures fertilizer pellet production line /organic fertilizer granulator production line for sale , inquiry now:)
