

Galvanized Steel Frame Fertilizer Belt Conveyor System Manure Belt Conveyor For Chicken Farm

Our Product Introduction

for more products please visit us on organicfertilizerequipment.com

Basic Information

- Place of Origin: China
- Brand Name: Tongda
- Certification: CE, ISO
- Model Number: 120
- Minimum Order Quantity: 1
- Price: 150-1500 USD
- Packaging Details: According to customer requirements
- Delivery Time: 5-10
- Payment Terms: L/C, D/P, T/T, D/A, Western Union, MoneyGram
- Supply Ability: 1000

Product Specification

- Product Name: Fertilizer Belt Conveyor System
- Frame Material: High Strength Galvanized Steel
- Usage: Construction Use
- Function: Conveying Cereal Grain
- Advantage: Elevated Belt Machine
- Belt WidthBelt Width: 500/650/800/1000/1200/1400mm
- Highlight: **Steel Frame Fertilizer Belt Conveyor System, Manure Fertilizer Belt Conveyor System, Chicken Farm Fertilizer Belt Conveyor System**

Product Description

High Quality Fertilizer Belt Conveyor System Manure Belt Conveyor for Chicken Farm

Fertilizer Conveyor, Feeding Conveyor, Belt Conveyor - Fertilizer Conveyor

Belt conveyors are widely used in transportation and production lines in industries such as mining, metallurgy, chemical engineering, casting, and building materials, as well as in production departments such as hydropower construction sites and ports. Mainly used for conveying crushed materials, according to the requirements of the conveying process, it can be conveyed by a single machine, or by multiple machines or combined with other conveying equipment to form a horizontal or inclined conveying system. Suitable for conveying low abrasive materials and bagged materials with a bulk density of less than 1.67/ton/cubic meter, such as coal, gravel, sand, cement, fertilizers, grains, etc., which are easy to remove in powder, granular, and small pieces. The temperature of the delivered material is less than 60 °C. The captain and assembly form can be determined according to user requirements, and the transmission can be either an electric drum or a drive device with a drive frame.

Features:

- 1.Simple structure and easy installation.
- 2.Low rate of breakdown and adapt to different use condition.
- 3.Various design form can meet different industries.
- 4.Cheap cost and long working life.
- 5.Easy move with special wheels.

Working principle:

New Design High-Capacity Bulk Cargo Belt Conveyor for Grain Fertilizer composed of conveyor belt, roller, belt tensioning device, cleaning device and so on. Belt under the drive of motor will be transporting all kinds of solid materials from one place to the appointed place, can be transported with Angle also. It can be used to transport materials in a variety of industries.

|-------------------|-------------------------|
| Condition | New |
| Material | Rubber |
| Material Feature | Heat Resistant |
| Structure | Belt conveyor |
| Place of Origin | China |
| Brand Name | Tongda |
| Voltage | 220/380v/415v |
| Power | 2.2-800kw |
| Dimension(L*W*H) | as the model you choose |
| Warranty | 1 Year |
| Width or Diameter | 1000mm |

Mobile belt conveyor widely used in mining,gravel field, metallurgy, building materials,chemical industry,mineral processing,coal mining and other industries.It can convey bulk material like coal,cement,sand,cereal etc.And can convey lump material,such as rock,also it can convey 50kg bags.

The styles is customizable, according to your own project and feeding material, we can design the belt conveyor type for you. Such as Length, Width, Shape, Belt surface, etc.

Pre-sale:

- 1.Our account manager will communicate with you the product requirements related to your machine.
- 2.We offer free product plans, packaging drawings and 3D renderings to save your budget.
- 3.We will provide our own quotation and proof of our machines.
- 4.We have a professional R & D department, to provide you with the most professional technical support.
- 5.We can make granulation experiment according to your raw materials.

FAQ:

1. Are you trading company or manufacturer ?

We are a manufacturer with a history over 40 years and have realized one-stop service for design, manufacture, installation, debugging and technical training.

2. How long is the delivery time?

For standard machines or Components, it would be 5-10 days; For non-standard machines and customized machines

according to clients specific requirements, it would be appointment time.

3. Do you arrange shipment for the machines?

Yes, we will do that. For FOB or CIF price, we will arrange shipment for you. For EXW price, we will assist you in arranging shipment.

4. How about your product after-sales service?

Normally we provide video and written technical support. If necessary, our engineers can also provide on-site service. Our product accessories can be selected according to the actual needs of the customer to choose the most appropriate way to deliver.

5. What kinds of certificate you have?

ISO 9001: 2015 SGS and we can make other certificates according to customers' detailed requirements.

6. How to guarantee the quality and operation before loading?

We have our own quality control department and have advance quality control system while from raw materials to finished products. All the machines and production lines shall be 100% checked and tested before delivery.
